PUBLIC SAFETY ADVISORY REGARDING ELECTRICAL HAZARDS DURING THE MONSOON/RAINY SEASON

It is hereby notified for the information of all faculty members, officers, officials, students, residents, contractors, and visitors that with the onset of the monsoon/rainy season, the likelihood of electrical hazards significantly increases due to heavy rainfall, thunderstorms, strong winds, water accumulation, and possible damage to electrical infrastructure. In order to safeguard human life and property and to ensure uninterrupted operation of electrical services, all concerned are advised to exercise extreme caution and strictly observe the following safety precautions: (i) Do not touch, approach, or attempt to move any fallen, broken, sagging, or exposed electrical wire, as it may be live and can cause severe injury or fatal electrocution. (ii) Maintain a safe distance from electrical poles, transformers, distribution panels, substations, and overhead power lines, particularly during and immediately after rainfall, thunderstorms, or windstorms. (iii) Avoid standing in waterlogged areas near electrical installations. Water can conduct electricity and may pose a serious risk of electric shock. (iv) Do not operate electrical appliances, switches, plugs, extension cords, or equipment with wet hands or in damp conditions. (v) Immediately discontinue the use of any electrical equipment showing signs of sparking, overheating, smoke, burning smell, or damage, and report the matter without delay. (vi) Ensure that all internal electrical wiring, sockets, switchboards, and extension cords are properly insulated and protected from rainwater and moisture. (vii) Keep children and unauthorized persons away from electrical installations and maintenance activities. (viii) Do not undertake any repair, alteration, or maintenance of electrical systems on your own. All electrical faults should be attended only by authorized technical personnel. (ix) In case of tree branches, signboards, or any other objects coming into contact with electrical lines, immediately inform the Electrical Maintenance Team and maintain a safe distance from the affected area. (x) During
