

Do you offer, manage or deliver outreach projects (education, health, information services, reading, community engagement, tutorials) for the local community?

Yes, here at UAF we do these kind of stuff very frequently, as a custodian of the core sector of the national economy who is not only providing a fresh blood to the national and organizations who remain busy in agricultural transformation through their cutting-edge solutions to ease the agrarian business in the country. During recent months, the UAF, in collaboration with the Directorate of Agriculture, Extension-Punjab, successfully executed the "Wheat Campaign 2025" from 8-16 November 2025. The campaign was launched across six divisions—Faisalabad, Sargodha, Lahore, Gujrat, Sahiwal, and Gujranwala—to ensure national food security by promoting modern wheat cultivation practices. The initiative mobilized over 4,000 UAF students, who were guided by university faculty and agriculture extension officials.
