Foreword

In the enduring journey of the University of Agriculture, Faisalabad—a journey that began with a vision to transform Pakistan's agricultural landscape—the year 2024–25 stands as a defining chapter. It is with immense pride and profound respect for our institutional legacy that I present this Annual Progress Report to the esteemed members of the Senate. This report is more than an account of achievements; it is the story of a university resolutely advancing toward its destiny as a global leader in agricultural education, research, and innovation.

In academic excellence, UAF has elevated its teaching, research, and outreach to meet and surpass international standards. We have launched forward-looking academic programs, expanded interdisciplinary research, and secured competitive national and international grants. The scholarly output of our faculty and students—in publications, patents, and awards—has reached record levels, affirming our role as a knowledge leader. According to the QS World Rankings, UAF has achieved 34th position globally in Agriculture & Forestry, evidencing our teaching and research excellence. Innovative initiatives, robust technology-transfer activities, and significant research commercialization have followed. Strengthened industry–academia partnerships have created pathways for joint ventures, consultancy projects, and professional training, ensuring that knowledge flows seamlessly from the laboratory to the marketplace. UAF fosters an inclusive environment where talent is the only measure of advancement. Through digitalization, we have transformed learning, research, and governance by deploying smart classrooms, AI-powered agricultural analytics, and virtual-learning platforms to expand both reach and efficiency.

In entrepreneurship, our incubation hubs, start-up accelerators, and agri-business ventures have not only nurtured innovators but also laid the foundation for sustainable business models that will make UAF increasingly self-sufficient. Revenue-generating research services, commercialization of university-developed technologies, and industry consultancy are already contributing to institutional sustainability. Importantly, we are introducing enhanced incentives for faculty and students—from research support and international exposure to performance-based rewards—ensuring that excellence is nurtured and celebrated.

Looking ahead, our extended strategic plan envisions UAF as a global hub of agricultural thought leadership, integrating artificial intelligence, biotechnology, climate-smart agriculture, and policy innovation to address food security and rural development challenges in Pakistan and beyond.

The achievements of 2024–25 are the result of a shared commitment. I extend my deepest appreciation to our faculty, staff, students, alumni, industry partners, and policymakers whose contributions have made this progress possible. I also thank the Editorial Board & Advisory Committee for preparing this valuable document with care and dedication. Together, we will continue honoring our legacy while charting new frontiers in knowledge, innovation, and service to humanity..

VISION

To lead the change through outstanding achievements in learning, discovery, innovation and community service with clear focus on programs of significance to agricultural and rural development

MISSION

In order to make Pakistan a prosperous, food-secure and resilient nation, UAF aims at the following goals:

- ❑ To advance knowledge through basic and applied research
- ❑ To revamp human resource development by transforming the pedagogic process from teaching to learning
- ❑ To facilitate lifelong learning by providing agriculturally focused academic programs
- ❑ To promote agrarian reforms through research based agricultural policy
- ❑ To disseminate knowledge to the community through extension and outreach
- ❑ To promote sustainable farming and food systems, from production through consumption

Vice Chancellor Prof. Dr. Zulfiqar Ali receiving Academics Excellence Award 2025

UNIVERSITY OF AGRICULTURE, FAISALABAD A LEGACY OF EXCELLENCE FROM 1906 TO GLOBAL LEADERSHIP

The roots of the University of Agriculture, Faisalabad, trace back to 1906, when the Punjab Agricultural College and Research Institute, Lyallpur, was established under the British colonial government. Its aim was to introduce modern agricultural education and scientific farming techniques to the Punjab region. The Institute quickly emerged as a pioneer in agricultural teaching and research in South Asia, with a special focus on soil science, irrigation practices, crop variety improvement (wheat, cotton, sugarcane, pulses), horticulture, plant protection, livestock breeding, and veterinary sciences. It also served as a model farm and training center for farmers, extension workers, and researchers, shaping the region's agricultural backbone.

Recognizing its outstanding contributions, the Government of Pakistan upgraded the Institute to the University of Agriculture, Faisalabad in 1961. This transition marked the beginning of comprehensive higher education in agriculture and allied sciences, along with the authority to confer undergraduate, graduate, and doctoral degrees. The University expanded its faculties to include Agricultural Engineering, Veterinary Science, and Social Sciences, and established collaborations with international institutions such as USAID, FAO, and Commonwealth universities.

Over the decades leading to the year 2000, UAF evolved from a single-focus agricultural institution into a multidisciplinary university while retaining its leadership in agricultural sciences. Notable milestones include faculty expansion into food science, environmental sciences, business management, and rural sociology. UAF played a significant role in Pakistan's Green Revolution—especially in developing high-yield wheat and cotton varieties—and continues to take pride in its accomplishments. Recently, the Punjab Seed Council approved the Dorum wheat variety "Chanab Pasta-24", developed under the leadership of Prof. Dr. Zulfiqar Ali—marking a significant contribution to the fast-food industry.

In the last two decades, UAF has consolidated its reputation as one of the world's leading agricultural universities. It consistently ranks among the top global universities in agriculture and forestry. According to the QS World University Rankings 2024, UAF achieved 34th position globally in Agriculture and Forestry—a remarkable leap from 56th in 2024.

Under the dynamic leadership of Prof. Dr. Zulfiqar Ali, Vice Chancellor, UAF has aligned its strategies around academic excellence, innovation, meritocracy, equity, digitalization, and entrepreneurship—becoming a global think-tank for sustainable agriculture. The university is spearheading Pakistan's transition toward climate-smart, technology-driven, and export-oriented agriculture, fostering stronger industry-academia-government alliances for food security and rural prosperity, and cultivating a culture of innovation and equity across all academic and research domains.

ACADEMIC ORGANIZATION

The academic organization is assigned to impart education, conduct research and extension in various disciplines through different Faculties, Sub Campuses, Constituent Colleges, Directorates, Institutes and Departments. The Faculties are headed by Deans, Sub Campus and Constituent Colleges by Principals, Institutes and Directorates by Directors and the Departments by one of the senior teachers of the Department, called the Chairman.

CONTROLLER OF EXAMINATIONS

Office of the Controller of Examinations plays a spectacular role in public image building of the University. The students demand timely declaration of result, issuance of various documents like detailed marks certificate, provisional certificate, etc., and an early evaluation of their theses. Final result notification process right from receipt of GS-10/UG-1 forms and award lists have been computerized. The process, which used to take months, now takes days and is almost error free. The documents are issued at the earliest or as and when the due process is complete. The results are received via LMS and online result submission portals. The electronically submitted results are accessed and used for compilation and notification purpose. This has saved a lot of time and labour that was otherwise laborious manual feeding of data.

Declaration of Results

Office of the Controller of Examinations issues the semester result notifications as well as final result notifications. In addition to this, Postgraduate Section of Controller of Examinations office notifies the award of degrees to the successful candidates thrice in a month. The result notifications of Ph.D. Scholars are issued immediately after all the requisite formalities are fulfilled. During the year under report, 123 scholars were admitted to the degree of Ph.D (Annexure-I).

Affiliated Institutes

The Controller of Examinations office also conducts the examinations of the students from the affiliated Institutes. There are 6 In-Service Government Agricultural Training Institutes in different areas of the Punjab and one Extension Services Management Academy (ESMA) at Garhi Dopatta, Muzaffarabad, Azad Kashmir affiliated with the University for three years Diploma course in Agricultural Science (DAS) and two years Livestock Assistant Diploma (LAD) and Two years Poultry Assistant Diploma Course (PAD) at UAF Sub-Campus at Toba Tek Singh. During the year under report 337DAS, 285 LAD and zero PAD students qualified the above said diplomas.

Economic Measures

As against the previous practice, the Ph.D theses are now got evaluated using email in about more than 90% of cases. This has saved a lot of time and money, and the number of Ph.Ds produced has markedly increased by using I.T gadgets.

Ph. D. Comprehensive Examination

Comprehensive examination for Ph.D. students was held thrice. During the year 2024-25, 266 Ph.D. students appeared in the comprehensive examination. The proceedings of the oral part of comprehensive examination are also recorded to ensure unbiased evaluation of the scholar or other possible issues (if any).

GRE (Subject) Type Test

Controller of Examinations office conducts the GRE (subject) type test for admission in Ph.D. studies in different subjects four times in year under consideration.

Entry Test

Controller of Examinations office conducted two entry tests (both in the morning and evening sittings) for admission in first degree programme at UAF during the year 2023-24. The detail is as under:-

Sr.#	Date	Entry Test	Total Candidates
1	14-7-2024	First degree program	14605
2	04-08-2024	First degree program	14195

Establishment of Electronic Script marking facility

In order to bring complete transparency in the marking of scripts and reducing the time for declaration of results, scripts scanning and preparation of results electronically was established. The capacity of this system was further enhanced by adding more resources and equipments.

DIRECTORATE OF STUDENTS AFFAIRS

INTRODUCTION

The Directorate of Students Affairs at the University of Agriculture, Faisalabad, plays a pivotal role in promoting a supportive and enriching environment for students, contributing significantly to their academic success, personal growth, and overall campus experience. The Directorate serves as an essential bridge between students and the University administration, working proactively to ensure that students feel heard, supported, and empowered throughout their academic journey.

This vital office is led by the Director Students Affairs and is efficiently supported by a dedicated team comprising four Associate Directors and eleven Deputy Directors. Together, they are engaged round the clock in facilitating a wide range of student-related services, including academic guidance, co-curricular engagement, disciplinary management, and logistical support. The team strives to ensure that students are not only academically successful but also well-integrated into the broader campus community.

The Principal Officer (Students Affairs) exercises full financial and administrative powers concerning the Directorate of Students Affairs. The Principal Officer also serves as the Chairman of the Students Affairs Committee, providing strategic leadership in policy-making and student welfare initiatives.

One of the core responsibilities of the Directorate is to foster a peaceful, inclusive, and respectful campus environment. The office plays a crucial role in resolving issues related to student discipline, transportation, health services, financial matters, library access and co-curricular activities. It also ensures active coordination with other departments to address students' evolving needs efficiently.

To uphold a positive institutional image both nationally and internationally, the Directorate consistently works to maintain order, promote student engagement, and support diverse student populations. Whether it is through managing routine campus life, handling disciplinary affairs, conducting ID card issuance, or overseeing student transport and welfare amenities, the Directorate remains committed to holistic student development.

The following is a summary of services delivered by the various components of the Directorate during the year 2024–2025:

SERVICES DELIVERED DURING 2024–2025

During the academic year 2024–2025, the Directorate of Students Affairs efficiently executed a wide range of responsibilities across its various components to ensure effective student facilitation and campus management.

The Campus Advisory Committee remained actively involved in maintaining discipline and providing counseling services. A total of 15 students (both male and female) were penalized for violations of University rules. Moreover, the Committee provided counseling to 256 students on various issues ranging from academic concerns to behavioral guidance. Additionally, 11 cases were referred to the Disciplinary Advisory Committee for further action, following due process and institutional guidelines.

The Discipline Committee convened 8 formal meetings throughout the year to deliberate on matters related to student conduct, ensuring a fair and consistent disciplinary framework. Similarly, the Students Affairs Committee held 8 meetings, addressing policy matters and student welfare initiatives aimed at enhancing the campus environment and streamlining services.

The I.D. Card Unit remained fully functional, catering to the documentation needs of both students and employees. A total of 5,300 identity cards were printed and issued in various formats according to institutional requirements. This unit continues to serve as a critical support wing for ensuring verified identity and access control across campus facilities.

In managing the affairs of shops, canteens, and khokhas, the Directorate oversaw the daily operations of these commercial outlets located across the Main Campus. Activities included the collection of monthly rent and withholding tax, regular food and hygiene inspections, monitoring of service standards, and coordination of procedures related to contract renewal.

The Directorate also facilitated study tours as part of students' academic enrichment. A total of 90 study tours were organized during the year, providing students with practical exposure and experiential learning opportunities in various disciplines.

Maintenance of student welfare facilities also remained a top priority. A total of 36 water coolers installed across the Main Campus were repaired and maintained, ensuring access to clean and cold drinking water for both students and staff throughout the year.

Lastly, the daily campus rounds conducted by the Director Students Affairs and his team served as a proactive measure to monitor and support student welfare. These routine visits allowed the team to observe campus dynamics firsthand, address emerging issues, and maintain a strong administrative presence, thereby promoting a healthy and disciplined academic environment.

RESEARCH & DEVELOPMENT **(AN OVERVIEW)**

Strategic Achievements and National Recognition

In 2024–25, the Office of Research, Innovation, and Commercialization (ORIC) at the University of Agriculture Faisalabad (UAF) achieved remarkable milestones, reaffirming its dedication to advancing research, innovation, and national development. ORIC-UAF secured the top rank among HEC-recognized ORICs for the second consecutive year, earning an additional 15% overhead on HEC-funded projects, a testament to its sustained excellence.

Research and Development Leadership

UAF significantly expanded its research portfolio, attracting funding from national and international agencies to tackle pressing global challenges such as climate change, healthcare, food security, artificial intelligence, and sustainable energy. Key accomplishments include:

- Financial support for postgraduate research
- Surge in national and international research publications
- Successful registration of new crop varieties and patents
- Reimbursement of publication fees and intellectual property filings
- Launch of new faculties, institutes, and academic programs
- Active participation in the Wheat Enhancement Campaign 2024
- Organization of capacity-building events for government officials, faculty, and graduate students

Innovation and Entrepreneurship

UAF strengthened its entrepreneurial ecosystem through initiatives like NICF, BIC, Plan-09, and IP awareness workshops. A landmark achievement was the registration of Agri. Connect Innovations Pvt. Ltd.—UAF’s first official company—designed to support faculty-led startups and commercialize research outputs.

Further, the establishment of the Technology Innovation Support Center and the inaugural Agri. Tech Park by STZA promises transformative support for research commercialization, offering fiscal incentives and attracting foreign investment.

Quality Assurance and Global Standards

UAF maintains rigorous oversight of HEC scholars and PhD supervisors. To align with international export standards, the Institutional Biosafety and Bioethics Committees conducted workshops and online courses, resulting in a rise in certified professionals. UAF now holds 29 NBC licenses for transgenic research, reflecting growing institutional capacity.

Global Rankings and Recognition

ORIC-UAF actively contributes data to global ranking agencies, helping UAF secure the 34th position worldwide and 37th in Southern Asia in the subject category of Agriculture and Forestry by the QS World Universities Ranking. In overall world university ranking, UAF stands at 654th in general category and 5th best in the country. In HEC’s Annual ORIC Self-Assessment Evaluation Report for 2023–24, ORIC-UAF has been highly recognized in “W” category as role model office among the HEC-recognized ORICs of the country.

Central Hi-Tech Laboratory Expansion

The ISO-certified Central Hi-Tech Lab continues to offer advanced analytical services. The recent acquisition of a Zetasizer, funded by ORIC, enables nationwide particle size analysis. Ten labs now provide commercial services, generating revenue, while an Instrument Repair Cell is being established to restore non-functional equipment.

Collaborative Research Networks

UAF maintains robust partnerships with national bodies like HEC, PSF, PARC/ALP, PAS, and provincial governments. International collaborations span institutions such as UC-Davis (USA), University of Kassel (Germany), CSIRO (Australia), and the Chinese Academy of Sciences. These alliances support joint research initiatives, including CPEC and Pak-France programs.

Impact and Strategic Outlook

Competitive grants have empowered postgraduate research, expanded lab infrastructure, and supported outreach. Indirect costs have funded innovative research, startup seed money, publication reimbursements, and employment. ORIC's efforts have deepened university-industry linkages, fostering problem-solving research with partners like FCCI and Engro Fertilizers. Looking ahead, UAF is poised to drive national food self-sufficiency and reduce the import bill, contributing meaningfully to Pakistan's GDP.

C. COLLABORATIVE RESEARCH PROJECTS

Sr #	Name	Department	Title of Project	Project cost
1	Prof. Dr. A. Wakeel	ISES UAF	Efficacy Assessment of Water Soluble and Traditional Potassium Fertilizers (MOP vs. SOP)"	5.502 million (Duration 1 Year)
2	Dr. Tariq Aziz	Depalpur, Okara	Urea Demand Study for next two decades	3.0 million (Duration 4 Month)
3	Prof. Dr. H. Naeem Asghar	ISES, UAF	Formulation of Zinc coated urea enriched with Zinc-solubilizing bacteria	13.47 million (Duration 2 Year)

SUMMARY OF OTHER ACHIEVEMENTS DURING THE YEAR 2024-25

Sr. #	Description	Nos.
1.	Research collaboration through postgraduate students with other R&D organizations	46
2.	No. of faculty members collaborating with other institutions under PARB funded projects	02
3.	No. of students proceed abroad through HEC International Research Support Initiative Program (IRSIP)	25
4.	No. of UAF faculty members collaborating with industry through ORIC	173

5.	No. of faculty members received reimbursement of publication charges/remuneration	05
6.	No. of students from other institutions who were entertained for their internships at UAF	30
7.	No. of cases processed by Institutional Biosafety/Bioethics Committee (IBC)	127
8.	Research funds provided through Partial Research Grants to the researchers/postgraduate students (0.72 million PKR)	10
9.	Newly launched projects by Industry	07
10.	Consultancy Projects /Agreements/Academia Industry Linkages Developed	13
11.	No. of projects under academia industry linkages	09
12.	No. of projects completed under academia industry linkages	01
13.	No. of Patents submitted	11
14.	No. of Patents registered	01
15.	No. of Crop Varieties Approved	11
16.	No. of Crop Varieties/Lines Submitted	96
17.	NBC license (for GMOs/ transgenic research) processed	29
18.	No. of students/project/private organizations entertained by Central Hi-Tech Laboratory for lab analysis of their samples	530
19.	No. of students imparted Hands-on trainings from CHTL on HPLC, Atomic Absorption Spectrophotometer (AAS), Zeta Sizer Spectrophotometer, Scanning Electron Microscope (SEM), Gas Chromatograph, Proximate Analysis, and General Laboratory Equipment	306
20.	No. of students from different institutions/organizations given practical demonstrations of the installed equipment at CHTL	849

QUALITY ENHANCEMENT CELL

The QEC was established in 2004 at the University of Agriculture Faisalabad in accordance with the guidelines of the Higher Education Commission (HEC). Since its establishment, the QEC has been actively involved in raising the quality of education across all degree programs at main campus and constituent colleges. The QEC is involved in capacity building of faculty, staff and students, facilitation in institutional self-assessment process and surveys related to human resource development. The QEC scrutinizes Self-Assessment Reports (SARs) for degree programs on an annual basis and ensures the implementation of SARs evaluation outcomes. The QEC is also responsible for checking similarity (plagiarism) in student synopsis and thesis. Furthermore, the QEC at UAF liaisons and facilitates evaluating/accreditation agencies for degree accreditation or for ranking purposes.

VISION

To elevate UAF to the status of a world class institution for teaching, research, development and innovation by contributing effectively to maintain the highest standards of education in agriculture and allied sciences.

MISSION

The mission of the Quality Enhancement Cell, UAF is to improve the standard of education in the areas of agriculture, veterinary sciences, agricultural engineering along with allied fields and to integrate the concept of quality assurance in education with enhanced levels of international compatibility through capacity building.

OBJECTIVES

- To build capacity and enhance standards of quality education at UAF
- To analyze and review the quality standards by auditing academic standards and quality of teaching, learning and management across all fields of education at UAF
- To provide guidance in the development and implementation of internal and external quality assurance procedures and practices
- To ensure that the quality of academic programs at UAF meet the standards expected by stakeholders
- To facilitate development of a culture of continuous quality improvement to achieve academic excellence and ethical values
- To promote public confidence in the quality education and research conducted at UAF

Overall Impact of Establishment of QEC at University Level

- Dash Board of the University
- Helpful for University Ranking
- Improvement in Quality of Research
- Enhanced Quality Publications
- Line of Distinction between performers & non-performers
- Discourage plagiarized data documentation.
- Helpful to incentivize best performers
- Meet HEC criteria of performer's indicators
- Provision of Quality in Education

Accreditation of Programs from relevant councils

QEC-UAF facilities other evaluating agencies coming to UAF for degree accreditation or for ranking purpose. In this regards, Accreditation Inspection Committee (AIC) is visiting UAF in September, 2024 for accreditation of following degree programs.

SWOT analysis by AICs of NAEAC-HEC:

- Environmental Sciences
- BS Dairy Sciences
- BS Forestry
- Agri Business

QEC office is facilitates the accreditation process in calibration with relevant departments. Membership of Associations / Networks. Talloires Network of Engaged Universities. (Tufts)-

The University of Agriculture, Faisalabad (UAF) was founded in 1906 as the Punjab Agricultural College and Research Institute, Lyallpur. UAF organizes a variety of events and programs the benefit the surrounding community including: termite control awareness events, training for small, local farmers, dengue awareness programs and female health programs. They also support a variety of technology transfer and outreach programs based in research being done at UAF.

Anti-Plagiarism Campaign

QEC has started creating the awareness about what is plagiarism and how to avoid plagiarism by holding seminars/workshops, articles, etc. to the students and faculty. QEC has also scrutinized synopsis/thesis of various degree programs and result is as following (2012-2025):

Center of Agricultural Biochemistry and Biotechnology (CABB)

Sr. No.	Name, Designation & Department/Institute	Local Training Program & City	Commencement Date/Period
1	Dr. Ghulam Mustafa, Professor, CABB	Two days training workshop on Molecular Biology in Forensic Science: From Sampling to DNA processing	October 01-02, 2024 Centre of Agricultural Biochemistry and Biotechnology, University of Agriculture Faisalabad-Pakistan.
		3rd International conference on Sustainable Development in Agriculture, Health and Food Security (SDAHFS-2024)	December 02-03, 2024, organized by The Women University Multan
2	Dr. Faisal Saeed Awan, Associate Professor, CABB	Training program on enhancing pedagogical skills of UAF Faculty	February 10-14, 2025
		Policy Workshop and interact with faculty and students	19 th May to 13 th June, 2025
		One Day Training workshop on "Plant DNA profiling for varietal identification and authentication"	May 27, 2025
		International conference on "Cooperative for sustainable agricultural and Rural Development"	May 28-29, 2025
3	Dr. Muhammad Shah Nawaz-ul-Rehman, Associate Professor, CABB	One day seminar and awareness walk on Aids	December 03, 2024 at University of Agriculture, Faisalabad
4	Dr. Adnan Khan Niazi, Associate Professor, CABB	2 nd International Conference on Advanced Stream Education	November 07-08, 2024, The University of Faisalabad, Faisalabad.
		One day seminar and awareness walk on Aids	December 03, 2024 at University of Agriculture, Faisalabad
		2 nd 2 Days Workshop on Molecular Biology in Forensic Science: from sampling to data processing".	01-02 October, 2024 organized by Centre of Agricultural Biochemistry and Biotechnology (CABB), University of Agriculture Faisalabad, Pakistan.

		From Microscope to Machine Learning: Hand-on-Training in Plant Disease Diagnosis”	September 25-27, 2024 organized by Center for Advance Studies in Agriculture and Food Security (CAS-AFS). University of Agriculture Faisalabad, Pakistan.
5	Dr. Faiz Ahmad Joyia, Associate Professor, CABB	3 rd International Conference on Sustainable Developments in Agriculture, Health and Biotechnology organized by Department of Biochemistry and Biotechnology, The Women University, Multan on 2 nd - 3 rd December 2024.	2 nd – 3 rd December 2024
		One day seminar and awareness walk on Aids	December 03, 2024 at University of Agriculture, Faisalabad
6	Dr. Irfan Ali, Assistant Professor, CABB	Two days training workshop on Molecular Biology in Forensic science: From sampling to data processing	1-2 October, 2024
7	Dr. Zunaira Afzal, Assistant Professor CABB	International hands-on training on CRISPR/Cas-mediated Genome Editing	May 6, 2024 → May 10, 2024
		From microscope to machine learning: Hands on Training in Plant Disease Diagnosis	September 25, 2024 → September 27, 2024
		D-8 Bioinformatics Bootcamp 2025	June 16, 2025 → June 27, 2025
8	Aneesa Ijaz, Lecturer, CABB	Training Workshop: Plant DNA Profiling for Varietal Identification and Authentication (Quality seed Project UAF)	May 27, 2025
		International Conference on Cooperatives for Sustainable Agricultural and Rural Development.	May 28, 2025
9	Dr. Saad Sarfraz, Assistant Professor CABB	Ophthalmic Genetics The DNA diagnosis Islamabad	08-01-2025
10	Dr. Hafiz Mamoon Rehman, Assistant Professor, CABB	Two days training workshop on Molecular Biology in Forensic science: From sampling to data processing	1-2 October, 2024
		One day seminar and awareness walk on Aids	December 03, 2024 at University of Agriculture, Faisalabad

11	Dr. Sehar Nawaz, Lecturer, CABB	Two days training workshop on Molecular Biology in Forensic science: From sampling to data processing	1-2 October, 2024
		One day seminar and awareness walk on Aids	December 03, 2024 at University of Agriculture, Faisalabad
12	Dr. Iqrar Ahmad Rana, Associate Professor, CABB	Two days training workshop on Molecular Biology in Forensic science: From sampling to data processing	1-2 October, 2024
		One day seminar and awareness walk on Aids	December 03, 2024 at University of Agriculture, Faisalabad
13	Dr. Siddra Ijaz, Professor CABB	Two days training workshop on Molecular Biology in Forensic science: From sampling to data processing	1-2 October, 2024
		One day seminar and awareness walk on Aids	December 03, 2024 at University of Agriculture, Faisalabad
14	Dr. Sultan Habib Ullah Khan, Professor CABB	Two days training workshop on Molecular Biology in Forensic science: From sampling to data processing	1-2 October, 2024
		One day seminar and awareness walk on Aids	December 03, 2024 at University of Agriculture, Faisalabad
15	Dr. Muhammad Mubin, Associate Professor, CABB	Two days training workshop on Molecular Biology in Forensic science: From sampling to data processing	1-2 October, 2024
		One day seminar and awareness walk on Aids	December 03, 2024 at University of Agriculture, Faisalabad
16	Dr. Bushra Sadia Professor CABB	Two days training workshop on Molecular Biology in Forensic science: From sampling to data processing	1-2 October, 2024
		One day seminar and awareness walk on Aids	December 03, 2024 at University of Agriculture, Faisalabad
		One Day Training workshop on "Plant DNA profiling for varietal identification and authentication"	May 27, 2025

17	Dr. Rao Sohail Ahmad Khan, Associate Professor, CABB	2nd International Conference on Advanced Stream Education	November 07-08, 2024, The University of Faisalabad, Faisalabad.
		One day seminar and awareness walk on Aids	December 03, 2024 at University of Agriculture, Faisalabad
18	Dr. Rimsha Riaz, Lecturer, CABB	Molecular Biology in Forensic Science: From Sampling to Data Processing (Workshop) Faisalabad	01-02 October, 2024
		Sugarcane varieties identification and production technology (Training) Faisalabad	06 June, 2025
		3 rd International Conference on Sustainable Development in Agriculture, Health and Food Security (Oral Presentation in Conference) Multan	20-21 November, 2024

NBC LICENSE (FOR GMOs/ TRANSGENIC RESEARCH) PROCESSED

Sr. No.	Case Title	Group/Lab	Principal Investigator
1.	Conduct Knocking down LEA-1 gene in date palm by CRISPR-CAS9 genome editing	Transformation	Dr. Iqar Ahmad Rana
2.	Harnessing CRISPR-Cas mediated knockout of E1/E1LB genes to generate photoperiod insensitivity in Soybean (<i>Glycine max L.</i>)	Soybean Biotechnology	Prof. Dr. Zaheer Ahmad
3.	Developing disease resistance in shisham via CRISPR cas9 genome editing	Transformation	Dr. Iqar Ahmad Rana
4.	CRISPR/Cas9 mediated editing of SELF-PRUNING (SP) and CAPRICE (CPC) genes in cotton to improve plant architecture.	Cotton, Biotechnology	Prof. Dr. Sultan Habibullah Khan
5.	Chickpea genome manipulation to develop herbicide tolerance	Chickpea Biotechnology	Dr. Rana Muhammad Atif
6.	RNAi based silencing of P450 monooxygenase CYP6AE14 and CYP6B6 genes in insects to control cotton bollworms	Cotton Biotechnology	Prof. Dr. Sultan Habibullah Khan
7.	Develop Banana Bunchy Top Virus (BBTV) resistant plants through CRISPR/Cas9-based editing of replication protein gene of Banana Bunchy Top Virus.	Transformation	Dr. Iqar Ahmad Rana
8.	CRISPR mediated downregulation of GoPGF (Pigment Gland Formation) gene in cottonseed.	Cotton Biotechnology	Prof. Dr. Sultan Habibullah Khan
9.	Develop canker-resistant plants through CRISPR/Cas9-based editing of the susceptibility gene CsLOB1 promoter in citrus.	Transformation	Dr. Iqar Ahmad Rana

10.	CRISPR-Cas9 based genome editing to enhance the salinity tolerance in Soybean (<i>Glycine max L.</i>)	Soybean Biotechnology	Prof. Dr. Zaheer Ahmad
11.	CRISPR/Cas based genome editing to develop and regulate the nodulation in soybean (<i>Glycine max L.</i>)	Soybean Biotechnology	Prof. Dr. Zaheer Ahmad
12.	Characterization of Soybean Mosaic Virus (SMV) homeologs and CRISPR- Cas9 mediated genome editing enhance the viral resistance in <i>Glycine max L.</i>	Soybean Biotechnology	Prof. Dr. Zaheer Ahmad
13.	To Conduct Genome editing of host susceptibility factors to engineer resistance against cotton leaf curl Gemini viruses.	Cotton Biotechnology	Prof. Dr. Sultan Habibullah Khan
14.	CRISPR-Cas9 editing to knockout negative regulating gene of heat tolerance in Soybean (<i>Glycine max L.</i>)	Soybean Biotechnology	Prof. Dr. Zaheer Ahmad
15.	To conduct Engineering broad spectrum disease resistance in abiotic stress tolerant elite tomato line	Tree Pathology	Dr. Zunaira Afzal
16.	Multiplex gene editing of IPK1A, IPK1 and MRP4 genes in maize.	Cotton Biotechnology	Dr. Aftab Ahmad
17.	Characterization of 1000 grain weight genes and their homeologues, and CRISPR/Cas9 Mediated Genome Editing to increase yield in <i>Triticum aestivum L.</i>	Wheat Biotechnology	Dr. Rizwana Maqbool
18.	Characterization of male sterility genes and their homeologues and CRISPR/Cas9 Mediated Genome Editing to increase yield in <i>Triticum aestivum L.</i>	Wheat Biotechnology	Dr. Rizwana Maqbool
19.	Enhancing Floret fertility by manipulating Grain number Increase-1 gene in Wheat (<i>Triticum aestivum L.</i>) through CRISPR-CAS mediated gene knockout	Wheat Biotechnology	Dr. Rizwana Maqbool
20.	To conduct CRISPR/Cas9 mediated genome editing to lower the erucic acid content in <i>Brassica rapa</i>	Wheat Biotechnology	Dr. Rizwana Maqbool
21.	Characterization of resistance starch genes and their homeologues and CRISPR/Cas9 Mediated Genome Editing to increase quality of starch in <i>Triticum aestivum L.</i>	Wheat Biotechnology	Dr. Rizwana Maqbool

22.	Characterization of 1000 grain weight genes and their homologues, and CRISPR/Cas9 Mediated Genome Editing to increase yield in <i>Triticum aestivum</i> L.	Wheat Biotechnology	Dr. Rizwana Maqbool
23.	Genetic improvement of wheat (<i>Triticum aestivum</i> L.) lines for better iron content through genome editing tools.	Wheat Biotechnology	Dr. Rizwana Maqbool
24.	Improvement of fiber quality in <i>Gossypium hirsutum</i> L. by CRISPR/Cas9- based editing of GhJAZ2 gene	Cotton Biotechnology	Prof. Dr. Sultan Habibullah Khan
25.	CRISPR/Cas9 Mediated Genome Editing of PPO genes in potato (<i>Solanum Tuberosum</i>) for reduction of Enzymatic Browning	Tomato target gene (PPO)	Prof. Dr. Zaheer Ahmad
26.	CRISPR/Cas9 Mediated Genome Editing of SIMAPK1 in (<i>Solanum lycopersicum</i>) for heat tolerance	Tomato target gene SIMPAKI	Prof. Dr. Zaheer Ahmad
27.	Genetic Improvement in Shelf-life of Tomato (<i>Solanum lycopersicum</i>) Using CRISPR/Cas9 Mediated Editing of Pectate Lyase (PL) gene	Tomato target gene Pectate Lyase (PL)	Prof. Dr. Zaheer Ahmad
28.	Application for CRISPR/Cas9 Mediated Genome Editing for Enhancing the Tolerance against Frost in <i>Solanum lycopersicum</i>	Tomato (target gene SIPP4)	Prof. Dr. Zaheer Ahmad
29.	Application for CRISPR/Cas9 Mediated Genome Editing in Potato for Late Blight Resistance	Potato (target gene CHI/gene)	Prof. Dr. Zaheer Ahmad

Consultancy Projects / Agreements/Academia Industry Linkages Developed

UAF researchers collaborate with industry for the solution of their industrial problems/bottlenecks through Consultancy Projects under UAF Commercialization Policy. During reporting period, Scientists at this campus extended consultancy services as per detail given below:

Sr. #	Agreement/ Project	Consultant Name	Agency	Title
	Consultancy	Dr. Muhammad Rizwan Tabbassum, Assistant Professor/Incharge PBI	M/s Wajid Iqbal & Co, Faisalabad	Biogas Production and analysis towards environmentally friendly technology
1.	Consultancy	Dr. Irfan Ahmad, Associate Professor, Department of Forestry and Range Management	CABI	Agrobiodiversity in Potato PepsiCo EEE10030A-A Pakistan

2.	Consultancy	Dr. Muhammad Nadeem, Assistant Professor, Farm Machinery and Power	Asim Mumtaz Agricultural Farm 18 Hazari District Jhang	Consultant regarding Farm Implements and Improved farm structure
3.	Consultancy	Dr. Adnan Mukhtar, Assistant Professor, UAF-Constituent Colledge, Depalpur Okara	M/S Taste Roots, Gujranwala	Consultancy regarding Dried Fruits, Herbs Spices and Innovative food products

STRENGTHENING TECHNOLOGICAL INFRASTRUCTURE

Executive Summary

Information Technology (IT) has become an integral part of teaching, research, and learning across academic institutions worldwide. At the University of Agriculture, Faisalabad (UAF), the IT infrastructure plays a pivotal role in facilitating the academic and administrative needs of the university community. Under the visionary leadership of the university management, UAF's IT department has significantly expanded its services, providing seamless, 24/7 connectivity and technical support to students, faculty, researchers, and administrative staff.

This report provides a comprehensive overview of UAF's IT landscape, key milestones, services, and future plans. It highlights the efforts made to strengthen digital infrastructure, promote research, enhance learning experiences, and ensure reliable communication across all campuses.

1. Role of IT in Research, Teaching, and Learning

In the modern academic environment, teaching, research, and learning are inextricably linked with Information Technology. Staying aligned with rapid technological changes is essential to meet the dynamic needs of education and innovation.

UAF has established a robust IT infrastructure that meets the multi-dimensional requirements of the academic community. The IT team operates around the clock, ensuring uninterrupted support and guidance to researchers, students, and staff, thereby enhancing productivity and efficiency.

The Higher Education Commission (HEC) has ranked UAF at the top among 140 universities in Pakistan for its research output. Building on this success, UAF aims to focus on the timely dissemination and translation of research findings into practical applications and ensure their visibility through regular updates on the university's website.

2. UAF Initiative on Internet and Society

As part of its digital advancement, UAF has launched the Interdisciplinary Research Initiative on Internet and Society. This cross-university program aims to explore the evolution of cyberspace and examine its implications in business, technology, economics, law, and society.

The initiative is geared toward:

- Understanding cyber-related challenges,
- Promoting interdisciplinary research,
- Developing strategic solutions to address these challenges

The future direction involves keeping pace with technological progress, maintaining global connectivity, and empowering the academic community to deliver innovative solutions for societal benefit.

3. Information Technology Resource Center and Data Bank (ITRCDB)

Established in December 2010, **ITRCDB** is the central hub for IT services at UAF. It operates on two core pillars:

- **Network Infrastructure**
- **Software Development**

Key Functions and Services:

- 24/7 high-speed internet access
- Centralized data management using Oracle 11g Release 2
- Real-time bandwidth distribution of 1.7 Gbps across academic, administrative, and residential areas
- Integration with Pakistan Education & Research Network (PERN2)
- IT support across all UAF campuses including PARS, Toba Tek Singh, and Burewala

Data Center Infrastructure:

- **Firewall:** Huawei USG 6600 UTM
- **Core Switches:** Huawei S12800, Quadway S5700
- **Servers:** Dell PowerEdge
- **Operating Systems:** Windows Server 2012R2, VMware 6.5, CentOS Linux 8
- **Communication Tools:** Microsoft Office Communicator Server
- **Wi-Fi coverage** across all hostels and sub-campuses

4. Key IT Services Provided by ITRCDB

- 24/7 uninterrupted, high-speed internet access
- Biometric attendance system management
- Deployment of campus-wide Active Directory
- Network-based surveillance and security systems
- System support and maintenance services
- Hardware repair and troubleshooting
- Web hosting and email services
- Digital Library and E-library access
- Video conferencing facilities
- IP telephony infrastructure
- Virtual Desktop Infrastructure via VMware Horizon
- LAN-based resource sharing
- Secure remote access for faculty
- Data backup and archiving solutions
- Network expansion for existing and new departments
- IT procurement advisory and technical support
- Virtualized environments using VMware and Hyper-V for optimized resource use and energy efficiency
- Deployment of High-Performance Computing (HPC) services to support advanced research

5. Network Development: Milestones and Achievements **Campus-wide Networking Initiatives:**

- In 2004, UAF launched the "**Campus-wide Networking and Computerization**" project, deploying fiber optics to support 400 nodes, which expanded to 1500 by 2008.
- The infrastructure was later upgraded under the "**Strengthening of IT Infrastructure**" project, resulting in:

- 2800+ network nodes
- Wireless connectivity in all hostels
- New state-of-the-art data center

Cloud Migration and System Upgrades:

- Successfully migrated to **Microsoft Office 365**, including Exchange, SharePoint, OneDrive, and Skype for Business.
- Entire campus now operates on **high-speed fiber optics** using Cisco's Layer 3 hierarchical model.

Software and Security Enhancements:

- Provision of licensed Microsoft Windows, Office, Antivirus, and productivity tools.
- Deployment of **Huawei UTM** for deep-level application security.
- Network surveillance under the **Smart Safe Campus Project** funded by HEC.

6. Sub-Campus Connectivity and Expansion

UAF, in collaboration with PERN and ITRCDB, has extended internet services to its sub-campuses:

- **Dedicated 60 Mbps fiber optic links** installed at:
 - PARS
 - Toba Tek Singh
 - Burewala campuses
- Wi-Fi deployment in all hostels and academic areas at sub-campuses

7. Completed IT Projects

- Migrated to Microsoft Office 365 cloud-based services
- High-speed fiber optic connectivity across all faculties
- Provision of licensed software and project management tools
- Installation of full-mesh Wi-Fi access points
- Upgrade from Cisco core/access switches to Huawei systems
- VMware Horizon-based Virtual Desktop Infrastructure (VDI) implementation
- Deployment of Data Network, VoIP, and Surveillance across sub-campuses
- Installation of hybrid (analog + IP) telephone exchange
- Implementation of secure UTM firewall for cyber protection
- Real-time Internet access to all departments and hostels
- Internet connectivity for PARS and PBI hostels
- Connectivity to new Jinnah Hostel (2000 student capacity)
- Installation of 94 IP CCTV cameras under Smart Safe Campus HEC project
- Network services extended to Amphitheater, CBC Training Center, CBC Residential, and Maryam Hostel

8. Future Outlook

UAF is committed to:

- Scaling up research-oriented digital infrastructure
- Increasing bandwidth to meet growing internet demands
- Expanding secure and energy-efficient computing environments
- Enhancing real-time data systems for student engagement and learning metrics
- Collaborating with partners for content development and program scaling

SOFTWARE SECTION

Information Technology Resource Center and Data Bank (ITRCDB) has also developed modules for different departments of UAF.

Real-time fee integration

In 2017-18 fee collection system has upgraded with real time bank integration. First time ever in university history ABL and MCB introduce real time fee collection mechanism, Students can submit university dues in any branch of banks as well as through ATM and get the real time confirmation in UAF system and on students' portal.

By introducing this system following changes and upgradation has happen:

- Fee submission facility of all ABL and MCB branches all across Pakistan
- Real time reporting to offices relating to finance i.e. treasure office, Fee section, Accounts department, Chief of hall warden office.
- Elimination of 24 hours gap from entries test vouchers verifications.
- Generation of merit list on frequently basis
- Generation of revenue reports
- Faster Bank reconciliation process
- Bank scroll summaries and reports

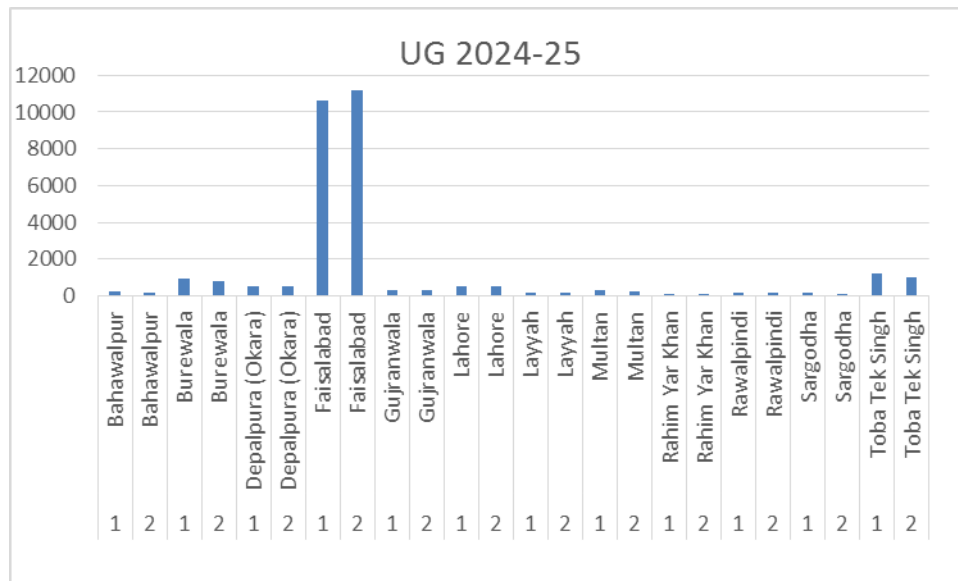

Online Admission & Record Information System

- In 2014, UAF lunched online admission system (Admissions & Enrollment of undergraduate and postgraduate) that was capable of taking the applications online. During the session 2016-17 we can proudly announce that first time ever all the process from entry test to admission and fee collection of first semester is done through online admission portal which is a great achievement for us. This summery report will describe all the process of admission in step by step.

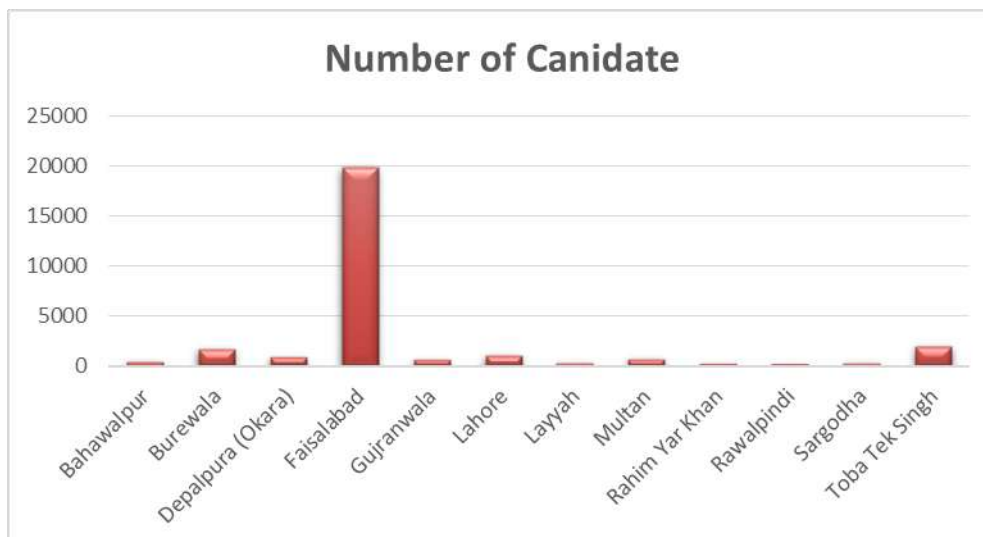

Entry Tests:

- **Undergraduate**

UAF Conduct two entry tests with various stream for the admission of undergraduate's session 2024-2025 in which almost 36000+ candidates registered with our Entry test portal and submitted the 30583+ application for entry test for all the 12 test centers. Below graph will describe the Campus wise number of applications of candidates.

Test Center Wise Comparison:

Application Submitted:

After Entry test there are 3583 + application is submitted through online portal in undergraduate session 2023-2024.

- **Merit Generation system:** IT has provided Undergraduate merit generation system from admission session 2024-25 to all departments/campuses, where any of focal person nominated by department/campus HOD can generate merit lists as much as their good office required. They can scrutinize any application by viewing their documents, set the seat allocation against any degree. system have the option to print merit lists in excel format for finalizing lists and publish for website.
- **Postgraduate**
- **Online Registration & Entry Testing:** Candidates register online, receive a unique registration number, and proceed through the entry test. The entire process including registration, document

uploading, test attendance, result verification, and fee submission is executed through our centralized online system.

- **Integrated Admission Processing:**
 Following the entry tests, the admission procedure is automatically initiated. All applications are inspected in detail, and merit lists are generated based on predefined rules within the system. This integration facilitates a smooth transition from test performance to final admission.
- **Documentation Management:**
 Essential documents such as DMCs, provisional certificates, character certificates, and other relevant records are managed centrally through the designated account and treasury offices. This ensures accurate record keeping and expedited processing.
- **Support Services:**
 Our Admission Help Desk, managed by the IT Directorate, remains available via phone, email, or in-person visits to address any queries related to both undergraduate and postgraduate admissions.

1. GAT Session 2024-25: Entry Test Data

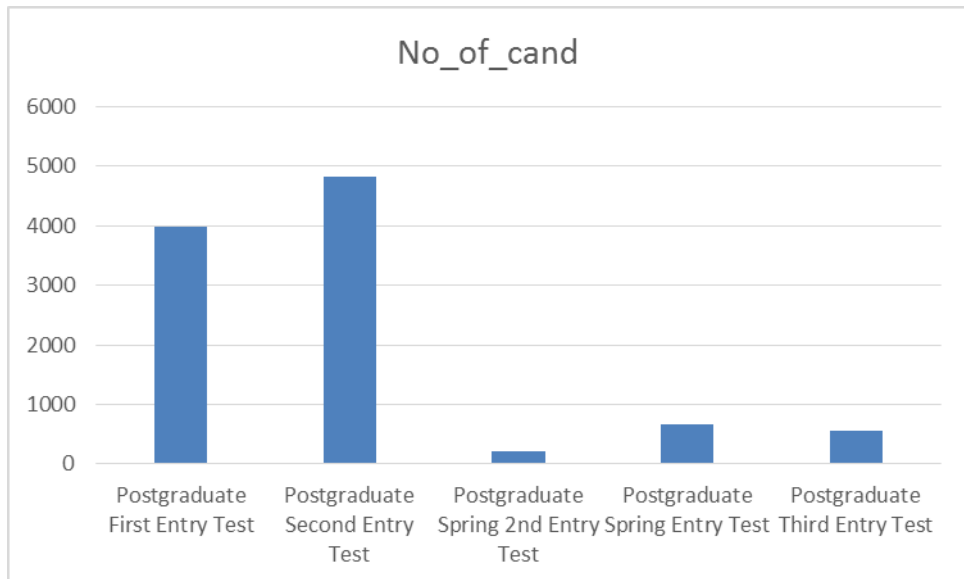

The following statistics reflect the performance in the GAT entry tests conducted during the 2024-25 session:

- **1st Entry Test:**

 - Candidates Appeared: 3971
- **2nd Entry Test:**

 - Candidates Appeared: 4811
- **3rd Entry Test:**

 - Candidates Appeared: 553

2. GRE Session 2024-25: Entry Test Data

Similarly, the GRE entry test data for the 2024-25 session is summarized below:

- **1st Entry Test:**
 - Candidates Appeared: 3971
- **2nd Entry Test:**
 - Candidates Appeared: 4811
- **3rd Entry Test:**
 - Candidates Appeared: 553

The GRE data reflects our commitment to maintaining rigorous assessment standards while accommodating the varied candidate profiles and performance levels.

3. Technology & System Integration

- **In-House Admission Software:**

Our proprietary admission and record management software continues to serve as the backbone of the admissions process. By engaging the latest technologies (e.g., ASP.NET Core), the system allows access from multiple locations, ensuring flexibility and convenience for all users.
- **Automated Merit Generation:**

The system automatically calculates and updates merit lists based on the entry test scores and application data, ensuring transparency and fairness throughout the admission cycle.
- **Digital Document Management:**

The transition to an entirely digital process for document submission and verification has significantly reduced processing times and enhanced the overall efficiency of our admission operations.

Commencement of Online Classes and Online Exam

With the collaboration of HEC, UAF deployed Learning Management Solution (LMS) that is catering around 20,000 students. During the COVID-19 pandemic situation, ITRCDB trained faculty members to conduct online classes using existing LMS system integrated with MS Teams for video streaming. UAF has successfully conducted online exams as well and more than 95% students made appearance. All the course material is published on LMS site which not only proving central repository for course management but also facilitating the faculty for managing attendance, online quizzes & midterms, assignments, and audio/video lecture delivery. Chat section for teacher with class, Turnitin Assignment module, Enrollment of Students, Digital library. UAF posted a list of MOCCs on LMS as well which are free for general audience and farmers.

Technical Support: ITRCDB has established a Technical Support Cell to extend all necessary support for the transition to online or hybrid mode of learning. ITRCDB start capacity building process with the help of QEC and trained university faculty for online classes and online examination during the COVID-19 pandemic ITRCDB achieved the objective Protect Health and Lives of all stakeholders including students, faculty members and employed in

universities as well as complete the semester in time through online education/examination.

Digital Library & Book Bank Information System

- Robust Library Management software is developed in house to facilitate computerized book record, e-search facility of books, journals and thesis, and track issuance records of books.
- Digital library program from HEC is playing a key role in the availability of electronic resources for the students at UAF. There are couple labs established at the library for male and female students who have access to digital library 24/7. ELIN & Ebrary are the popular ones among the students.
- Process of book issue, Book rents and fine all is controlled by this in-house system.

Web Portal

- FTP server is configured by the ITRCDB to cater the staff and faculty for uploading/downloading files.
- Microsoft Cloud services are also being used to share the data within the organization. Data is posted and retrieved through a single sign on process using email credentials.
- Use of E-Calendar is introduced campus-wide that facilitate all the faculty and staff to stay connected and schedule their appointments using electronic method.

Mobile Apps

UAF launched few android apps in last 4 months that are designed for information distribution and student & staff interaction. UAF campus app helps students to stay tuned with latest news and updates and access to information on few clicks. They are also facilitated with online admission through app, checking merit lists, and many more other options to explore.

Electronic generation of DMCs, Degrees, and Award lists

Controller of Examination office is also equipped with in house developed software which is capable of generating DMCs, Degrees, Award list generation and management, subject enrollments of all postgraduate and undergraduate students and result lists generation. Right after the admission of any student of postgraduate or undergraduate, process start from registrations of students till DMC issued is all controlled by in house system and centralized database.

Electronic printing of Identity Cards

- In 2014, ITRCDB developed an application that is capable of allocating hostel form one central database. Hostel management system is completely capable of storing and maintains hostel wise student records. This system is fully integrated with fee section system and data is limited in access to Fee office for printing of fee vouchers of boarder students. The system stores complete history of all students from the time of admission till degree completion and furthermore it has capacity of credentials-based access by the male and female hostels.

- Recently IT office has updated student identity card on RFID card system with newly standard designs with separation of Boarding and Non-boarding students' categories. This increase the system capability for tracking of students records with RFID system components.

Maintain Student Records electronically

Student Record Branch Information System is capable of maintaining and managing student records electronically.

Electronic printing of fee slips

Undergraduate and Postgraduate Fee Management System is also major software which is capable of keep track of all fees paid by students in each semester. Fee slips are being generated by using this software automatically for last few years. This software is providing financial management assistance of funds to the treasurer office. With this system, fee vouchers can be printed at department levels. which is completely designed credential based.

Accounts Management System

IT has developed a system for managing income account where all the dues directly created to university income account. This system managing all type of vouchers such as for students DMC, character certificate, NOC, etc. and for employee's wheat vouchers, income transfer from other banks, parking accounts etc. after submission all type of reports of verified dues also been managed.

Electronic Hostel allocation system

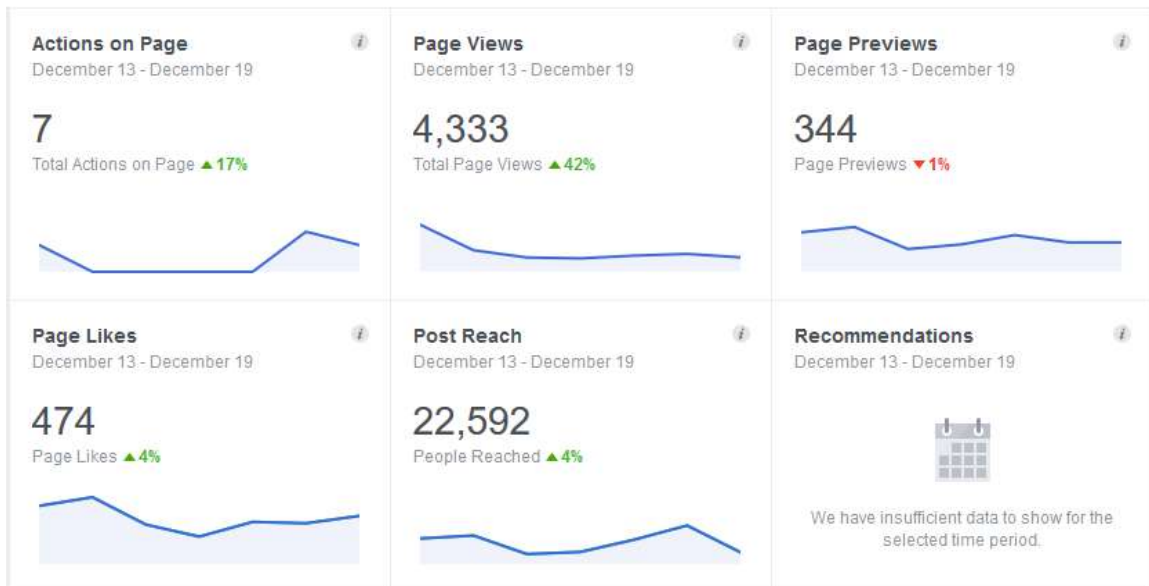

In 2014, ITRCDB developed an application that is capable of allocating hostel form one central database. Hostel management system is completely capable of storing and maintain hostel wise student records. This data is limited in access to Fees office for printing of boarder vouchers. The system stores complete history of all students from the time of admission till degree and furthermore it has capacity of credit based access by the male and female hostels.

Social Media & UAF

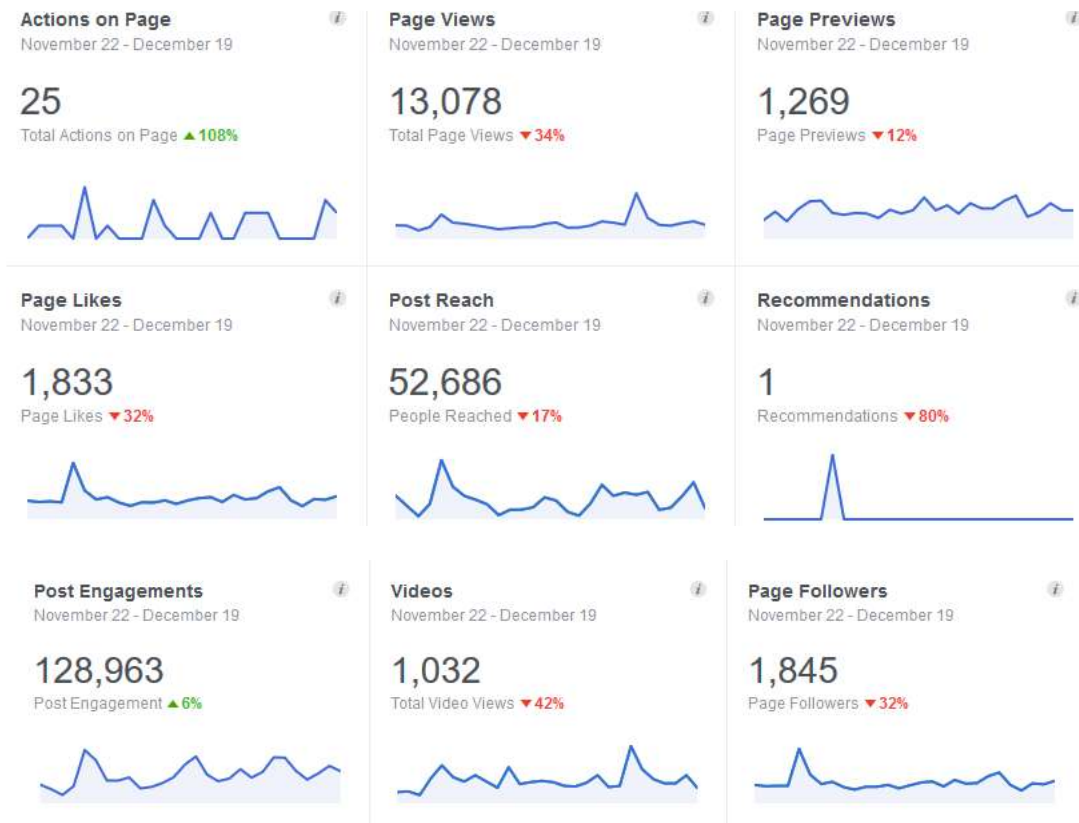

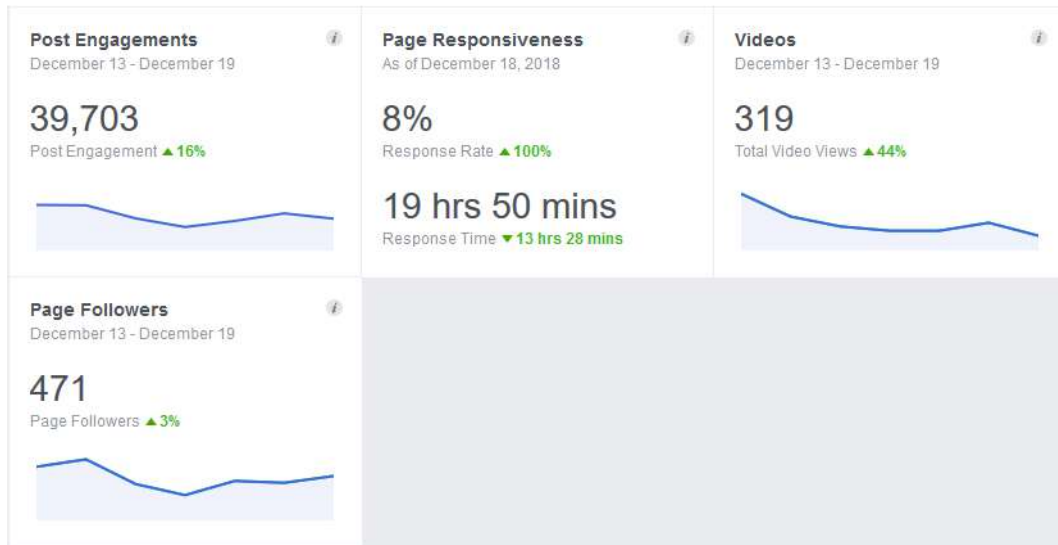

- Use of Social Media has become a major pillar of campus life. UAF is aggressively working on Twitter, Facebook, LinkedIn, RSS Feed, YouTube University Channel to stay connected with students and global world to help them and provide them information related to campus activities and other News and Information related to campus life. All the news and announcements are broadcast using Twitter, RSS Feed and Facebook pages.
- Both teachers are students are looking at social media as a tool to engage, support, and connect students, teachers, and institutions. Social media is becoming an integral part of life online as social websites and applications proliferate. Most traditional online media include social components, such as comment fields for users.

ITRCDB Web Development and Maintenance

The Centre is also administrating the following websites.

- University website www.uaf.edu.pk which is the richest source of comprehensive and up-to-date information about the campus' life, research, academic activities, academic calendar, documentaries, photo galleries and publications. UAF's website is also facilitating the student, staff and faculty by providing web based catalog interface for Central Library of UAF the end users can search Books, theses and journals effectively & efficiently and also download soft copies of them.

- In 2015 UAF launched Online Entry Test registration for Undergraduate Program that was capable of taking the application online and facilitate the students.
- The Department of ITRCDB also launched the online registration for DICE -2015 www.uaf.edu.pk/pages/dicestp1.aspx (Distinguished Innovations, Collaboration & Entrepreneurship). DICE is a strategic initiative of DICE Foundation aimed at fostering innovation culture in the country.
- A new website for USPCAS uspcasafs.uaf.edu.pk/ has also been developed and managed by the center. U.S.-Pakistan Center for Advanced Studies in Agriculture and Food Security (USPCAS - AFS) is an initiative by USAID. The USPCAS-AFS will serve as a focal point for collaborative research and training among all nodes of agricultural sciences related to food security.
- opaclibrary.uaf.edu.pk/ is providing web-based interface of library management software to provide information of book, thesis and journals available at library online. Students and employees can access this information without visiting library.
- A web-based forum for current student and alumni www.alumni.uaf.edu.pk has also been developed and managed by the center. It develops a social network of Old and New students and become the centralized platform for current students as well as alumni of UAF to keep in touch with each other. Students/alumni can chat, send email, post jobs and can share old memories with each other by adding other students in their friends list.
- Online employees repository and papers repository www.repository.uaf.edu.pk also has been developed and managed by this center. These repositories are providing all information about employees and publication so far.
- www.icdd.uaf.edu.pk is another website that is managed by the center; this site is UAF's consortium with other universities globally to perform research in the field of agriculture.
- Web section is also managing employees official email system which is hosted on Google servers known for remarkable security and identity theft protection. Employees are encouraged to get their official email IDs to let they communicate with outer world with their official identities.
- In 2015 Department started to create official email address for the post graduate students, students can now use their official email ids for their research and publications
- <http://student.uaf.edu.pk> for printing of semester-wise regular fee vouchers from world wide web.
- Online Books system has introduced, running on following link <http://onlinebooks.uaf.edu.pk/>
- Employees and journals information is developed by ITRCDB <http://staff.uaf.edu.pk/Login.aspx>

Software Enhancements Projects in Pipeline

- Virtualized Eco-friendly Data Bank environment
- Assessment and Initialization towards migration to Cloud
- Campus Management Solution: Assessment and Deployment of Enterprise Resource Planning (ERP)
- Deployment of in-house upgraded testing and development environment
- Deployment of Virtual Learning environment: Instructor-led Online & Self-paced Online
- Secure data sharing and transfer
- Introducing and implementing IT policies and procedures

- Deployment of IT asset management application
- Online Registration for the university Scholarships

Deployment of Enterprise Resource Planning (ERP) and Campus Management System (CMS)

ITRCDB is in the process to deploy Enterprise Resource Planning (ERP) and Campus Management System (CMS) through HEC funded project titled "Establishment of I.T and Library Infrastructure for new Disciplines of Food and Energy Engineering and Science at University of Agriculture, Faisalabad. Project aims to deploy following SAP S/4HANA based ERP and CoC based Campus Management software modules to automate business functions of University:

ERP Modules

1. Financial Management System
2. Tender, Procurement & Inventory Management
3. Human Resource Management System
4. Payroll Management System
5. Pensioner Management System
6. Voluntarily Provident Fund Management System
7. Provident Fund Management
8. Benevolent Funds Management System
9. Endowment Fund Management System
10. Vehicle Management System
11. Research Grant Management System

CMS Modules:

1. Online Admission System
2. Academics
3. Learning Management System (LMS)
4. Fee Management System
5. Examination Management System
6. Auto-Attendance System
7. Library Management System
8. Hostel Management System
9. Student Complaint Management System
10. Student Record Branch
11. Students/Parents/Faculty portals

PAK-KOREA NUTRITION CENTER (PKNC)

To Improve Child and Community Nutrition

The project titled *“Establishment of Pak-Korea Nutrition Center (PKNC) to Improve Child and Community Nutrition”* is a flagship initiative between the Islamic Republic of Pakistan and the Republic of Korea (South Korea) hosted by University of Agriculture Faisalabad (UAF) in a comprehensive support from Chungnam National University (CNU), South Korea. It is financially supported by the Higher Education Commission (HEC) of Pakistan and the Korea International Cooperation Agency (KOICA) of South Korea. The primary objective of this project is to improve the nutritional status of children, mothers, and communities across Pakistan. This goal is being pursued through scientific research, development of nutrition-related products, capacity-building through training programs, and policy advocacy.

The project achieved significant milestones in its progressive timelines. The construction of state-of-the-art PKNC building is completed and inauguration ceremony was held on September 19th, 2024. It marks a major milestone by providing a dedicated space for research, development, and training activities. The building houses Four Nutrition Laboratories and Four Training Rooms, dedicated for the training of Lady Health Workers, School Advisors, Clinical Dietitians and activates of Policy Advocacy & Outreach equipped with cutting-edge technology and research instruments provided by KOICA from South Korea.

The PKNC has partnered with various educational and healthcare institutions across the country to support its agenda. This includes five provincial partners: University of Agriculture Peshawar (KPK), Bolan University (Balochistan), Faisalabad Medical University (Punjab), Sindh Agriculture University (Sindh) and Karakoram International University (Gilgit Baltistan) along with two Outreach Centers in Quetta and Narowal. The initiative promotes advanced knowledge, skills, and innovative practices in nutrition.

The establishment of the Food and Agriculture Museum/ Agri. Heritage Museum at the University of Agriculture, Faisalabad (UAF) represents another major milestone under the PKNC project. This museum is envisioned as a dynamic space dedicated to preserving and exhibiting Pakistan’s rich culinary and agricultural legacy, creating a meaningful connection between traditional practices and modern advancements. Currently, the museum is in its construction phase

An important element of the PKNC project involves the establishment of the PKNC Outlet, dedicated to the marketing and distribution of fortified, nutritious and organic products supported with indigenous raw materials ready to leverage PKNC products developed through in-house research.

Furthermore, PKNC has awarded multiple Research Grants to national scholars through a competitive application process to advance the nutrition research agenda and support innovative startups. These awards include (5) five applied research grants, (2) two policy research grants, (1) one COVID-19 focused policy grant, and (4) four startup grants.

PKNC has six thematic Chairs covering areas like 1- Nutrition & Public Health, 2- Food Fortification, 3- Food Processing, 4- Product Development and value addition, 5- Compositional Analysis, and Database, 6- Policy Advocacy and Outreach. There are three training groups for **I. Clinical Dietitians**, to train clinical practitioners directly involved with food habits of the society **II. Lady Health Workers**, to train the frontline workers to educate community mothers and **III. School Advisors**, directly involved in education of school going teachers to educate children. In its third year, the project trained approximately three thousand frontline workers in preventive nutrition.

End Beneficiaries	29,370

The Clinical Dietitians Training Group at PKNC, UAF has successfully trained 1,325 clinical dietitians across various institutions across the Punjab. Similarly, the Lady Health Workers Training Group has conducted multiple sessions, training 766 Lady Health Workers and supervisors. Additionally, the School Advisor Training Group has trained 944 school advisors and teachers at diverse educational institutions.

Alongside the training conducted by PKNC, Master Trainers from Provincial Partners are delivering sessions across urban and rural areas of KPK, Balochistan, Punjab, Sindh, and Gilgit Baltistan. Notably, each trainee has shared their knowledge with at least ten end beneficiaries including children, mothers, and community members thereby significantly amplifying the project’s overall impact.

Master Trainers representing Faisalabad Medical University, University of Agriculture Peshawar, Bolan University of Medical & Health Sciences Quetta, Sindh Agriculture University Tandojam, and Karakoram International University Gilgit Baltistan have conducted extensive training for hundreds of frontline workers across diverse and underserved regions of Pakistan.

The Nutrition & Public Health Chair at PKNC has made significant progress in developing nutrient-rich, value-added foods for a school meal program targeting children aged 6–9. It conducted a dietary survey of 360 patients in hospitals of Punjab to assess iron and zinc deficiencies and developed a validated food directory with 253 standardized recipes. These

efforts address key health issues like micronutrient deficiencies and chronic diet-related diseases.

The Food Fortification Chair at PKNC has made significant technological advancements, including 3 Fortification technologies and the development of 12 fortified products enriched with vitamins A and D, along with 8 composite flour and multi-mix products. These innovations ensure effective commercialization and distribution of essential nutrients to address widespread vitamin deficiencies. The chair also engaged in coating and dusting techniques to fortify locally available salt and spices with iron and zinc, targeting anemia and micronutrient deficiencies.

The Food Processing Chair at PKNC focuses on sustainable, innovative, optimized food processing methods like microwave, ultrasonic, and other green technologies. These approaches improve nutritional value and reduce energy usage. The chair developed 2 cutting-edges sustainable technologies namely Ohmic Heating and Green Technology and also worked in optimizing four key processes.

The Product Development & Value Addition Chair at PKNC undertakes research initiatives, including comprehensive nutrition surveys that yield critical insights into dietary patterns, nutritional status, and regional food composition. In collaboration with large-scale producers, the chair has developed and commercialized 24 value-added food products, while sustaining strategic private partnerships for mass production. These efforts are instrumental in shaping Pakistan's nutritional landscape and informing priority areas for innovative food development.

The Compositional Analysis & Database Chair at PKNC has analyzed 140 local, indigenous, and fortified food products for nutritional and chemical profiles to establish a comprehensive databank, supporting dietary guidelines and policy formulation. To enhance community engagement and public awareness, the project launched a robust digital presence, including a dedicated website, (PKNC Diet Planner, PKNC Food Composition, PKNC Survey), mobile apps, and active social media platforms, facilitating widespread dissemination of nutrition and healthy eating information.

The Policy Advocacy and Outreach Chair at PKNC serves as a cornerstone in influencing national nutrition policy and programs. It is actively engaged in policy dialogues involving government, academia, industry, and civil society to craft strategic interventions for Pakistan's nutritional improvement. Furthermore, the chair developed eight educational materials for community nutrition. A notable event was the policy dialogue, which was complemented by the development of comprehensive nutrition-related strategies

Academia-Industry collaboration with Global Alliance For Improved Nutrition (GAIN) and Bakeparler Karachi, constitutes a strategic pillar of the PKNC project, facilitating the scale-up of innovative nutritional product manufacturing.

At PKNC, targeted community nutrition programs have demonstrated remarkable competence in fostering sustainable behavior change and improving dietary practices. The PKNC's dedicated efforts in strategic advocacy have begun to influence policy and practice at the national level. PKNC has also credited from KOICA Pakistan Office in its 15th year celebrations ceremony in which PKNC stall was only entity at the venue obtaining the acknowledgment and attraction from notables. In conclusion, the third year of the "Establishment of Pak-Korea Nutrition Center (PKNC) to Improve Child and Community Nutrition" project has marked notable advancements in enhancing nutritional and health outcomes across Pakistan. This period witnessed the shipment and installation of laboratory equipment and furniture from South Korea. Now the laboratories at PKNC are fully operational for in-house research and analysis with state-of-the-art facilities. The successful execution of capacity-building initiatives for healthcare services providers, targeted community nutrition programs, and strategic advocacy to influence policy and practice continues to embark its journey at PKNC.

CENTRE FOR ADVANCED STUDIES IN AGRICULTURE AND FOOD SECURITY (CAS-AFS)

Center for Advanced Studies in Agriculture and Food Security (CAS-AFS) at UAF has been recently designated as a D-8 Research Center by the D-8 Organization. The D-8, also known as Developing-8, is an intergovernmental organization of eight developing countries (Bangladesh, Egypt, Indonesia, Iran, Malaysia, Nigeria, Pakistan, and Turkey) established to improve member countries' position in the global economy, diversify and create new opportunities in trade relations, enhance participation in decision-making at international level, and improve standards of living. CAS-AFS was selected due to its state-of-the-art research and academic resources in the domain of agriculture and food security and its location in the top agricultural institution of the Pakistan.

The center was originally established by HEC with funding from USAID to build capacity in crucially important areas for a sustainable growth in agriculture and food security as per SDG#2. The center worked to improve governance of UAF (training of key persons, development of policy and operational manuals), revamp pedagogy and upgrade research capacity to meet societal needs. Under curricular reforms programs, CAS launched three postgraduate degree programs (Climate Change, Seed Science & Technology, and Human Nutrition and Dietetics) and a short course on One Health. This initiative particularly benefitted students to access higher education on merit and need based as well as capable faculty to conduct innovative research through competitive grants. Through a scholarly exchange program in collaboration with the University of California-Davis and Washington State University-Pullman, the Centre built a cohesive scientific community capable of doing cutting edge research and transfer relevant knowledge and technology to society at large. A fully trained faculty having capability of competitive research and resource mobilization has been placed in the center's new building to serve as a nucleus to initiate interdisciplinary research and training programs related to agriculture and food security. It is ensured that its research agenda meets the client's needs and attracts private sector funding in future to become sustainable. Five chairs were established for addressing the most important areas to address emerging issues in food security.

Utilization of latest advancements in the field of agriculture in D-8 countries is crucial for their sustainability and self-reliance. With unique infrastructure, location, and ongoing activities at CAS-AFS, it can work as an R&D hub to help institutions of D-8 Countries in

building their capacity in research, academics, and outreach, and adopt latest technologies and innovations.

CAS-AFS Facilities/Infrastructure

Covering a 56196-sq. ft., the Centre’s building is an architectural landmark located in the heart of the main UAF campus. This energy- and space-efficient three-story building houses state-of-the art research and teaching laboratories, fully equipped conference/lecture theatre, advanced computer and electronic labs and a dedicated library. In addition to perform modern teaching and research, the building has the capacity to convene policy dialogues, conferences, and training workshops for stakeholder consultation and broad dissemination of knowledge and technologies. The building houses a whole range of modern equipment for research in focus areas. The following is the list of fully equipped thematic lab under CAS setup:

1. One Health Lab
2. Cell and IVF Lab
3. Wheat Biology Lab
4. Chickpea Lab
5. Soybean Lab
6. Tree Pathology Lab
7. Transformation Lab
8. Cotton Biotechnology Lab
9. Precision Agriculture Lab
10. Climate Change Lab
11. Central Analytical Lab
12. Equipment Repair Lab

In addition to recently developed resources at CAS, the UAF is a rich source of infrastructure and facilities like experimental farms, greenhouses, Hi-Tech lab, and several equipment present in different departments of faculties. Resources of CAS as well as UAF are readily available for use by every researcher and student.

CAS-AFS was developed with an effective management structure with clearly defined roles and responsibilities. It had several dedicated management sections, each headed by a key personnel/Line manager. These sections included Monitoring & Evaluation, Administration, Finance & Grants, Procurement, Communications, and Internal Audit. The USAID built the capacity of each section through professional training courses at LUMS along with development of procedural manuals (HR Manual, Finance Manual, Grants Manual, Procurement Manual, and Internal Audit Manual) which are followed in letter and spirit for all processes at CAS-AFS. It was due to effective management, monitoring and evaluation mechanisms of CAS that the center surpassed in achieving all mandatory targets of the project in the given time frame.

A. Community Services and Outreach (23-24)

1. Stakeholder Conference on Soybean (January 25, 2025)
2. D-8 Bioinformatics Bootcamp 2025 (June 16 2025 – June 27, 2025)
3. From microscope to machine learning: Hands on Training in Plant Disease Diagnosis (Sep 25, 2024 – Sep 27, 2024)
4. Two-day International conference on WHEAT for climate and food system resilience (Feb 25, 2025 – Feb 26, 2025)
5. International Seminar: AI Cultivation: Shaping the Modern Age of Agriculture (June 16, 2025)
6. Capacity Building Workshop on Agricultural Policy (May 19 2025 - June 03, 2025).

B. Foreign Visits

1. Prof. Dr. Sultan Habibullah Khan visited Iran on April 28, 2025 - May 04, 2025, for the INOTEX 2025 for Lol Signing with D8TTEN.
2. Prof. Dr. Sultan Habibullah Khan visited Turkey on May 26 to June 3, 2025, to participate in the D8 Commission Meeting.
3. Participated at Washington State University, Pullman, WA, USA under WSU-UAF collaboration to discuss future collaborations and visit of different facilities from July 27th to August 2nd, 2024
4. Visited University of California Davis, CA, USA for wheat/cereal partnership for future from 5th August to 9th, 2024.
5. Attended ACIAR funded research project meeting and International Wheat Conference in Sydney and Perth Australia from September 15 to September 28th, 2024
6. Participated in ADB-IRRI Knowledge-Sharing Workshop on Strengthening Climate Resilient and Low Carbon Agriculture on 11-13 December 2024, IRRI, Los Banos, Laguna, Philippines (funded by ADB)

C. Development of International Linkages (MoU)

1. Iran-Pakistan MoU Signed at INOTEX 2025 for Single-Tube PCR Kit Production

D. Research Grants & Knowledge Products

Completed Projects

1. ADPC funded High Throughput Crop Monitoring using Computer Vision for Climate Smart Agriculture was an international project (2023-2025) funded by ADPC with \$100,000, directed by Prof. Dr. Sultan Habibullah Khan, resulting in the Kisan360 platform.
2. HEC funded Low cost domestic production of Taq Polymerase enzyme for research and diagnostics was a national project completed in 2024, funded by HEC with Rs. 7 million, led by Prof. Dr. Sultan Habibullah Khan, producing Magic Tubes technology.
3. Establishment of Precision Agriculture & Analytics Lab (PAAL) under the National Center in Big Data and Cloud Computing was a national infrastructure project (2018-2024) funded by Ministry of Science & Technology and HEC, involving multiple Co-PIs including Prof. Dr. Asif Kamran, Prof. Dr. Saqib Ali, and Rana Muhammad Atif, with industrial partners.
4. Field testing, evaluation and demonstration of climate resilient wheat lines on different locations of Pakistan was a national agricultural project (2023-2024) funded by EFS-UAF, led by Dr. Rizwana Maqbool as PI, working with farmer partners.
5. Linking UoM and UAF wheat researchers to improve global health was an international collaboration (2023-2024) funded by Crawford Training Funds-Australia with \$20,000 (5.71 million PKR), led by Dr. Raheela Rehman as PI with academic partners.
6. 100-acres Soybean Demonstration Trials in Pakistan was a national agricultural project (2023-2024) funded by EFS with 1.0 million PKR, co-led by Dr. Raheela Rehman, involving farmer partners.
7. High Throughput Crop Monitoring using Computer Vision for Climate Smart Agriculture was an international project (2023-2025) jointly funded by ADPC and World Bank with \$100,000, led by Prof. Dr. Saqib Ali as PI.

8. Demonstration of Elite Soybean Lines at Farmers' Fields was a national agricultural demonstration project (2023-2024) funded by EFS UAF with 0.8 million PKR, led by Prof. Dr. Zaheer Ahmad as Principal Investigator.

Ongoing Projects

1. The National Center for Genome Editing (NCGE) is a national project running from 2021 to 2025, funded by the Ministry of Science & Technology (MoST) with a budget of Rs. 501 million, led by Project Manager Prof. Dr. Sultan Habibullah Khan.
2. The Demonstration of best production management practices for chickpea production in irrigated areas of Punjab is a national initiative (2022-2025) funded by the Endowment Fund Secretariat, with Dr. Rana Muhammad Atif as Principal Investigator, involving farmer partners.
3. Accelerating genetic gain in wheat through hybrid breeding in Bangladesh, Ethiopia and Pakistan is an international collaboration (2020-2025) supported by ACIAR, with Dr. Rizwana Maqbool serving as Co-Principal Investigator, working with both farmer and industrial partners.
4. The Dissemination of biofortified wheat germplasm in district Lasbela, Balochistan to overcome hidden hunger is a national project (2024-2026) funded by EFS-UAF, with Dr. Rizwana Maqbool as Co-PI, collaborating with farmer partners.
5. Development of cost-effective wheat rust surveillance system is a national project (2024-2026) funded by EFS-UAF, led by Dr. Rizwana Maqbool.
6. Commercialization of lysibody and bacteriophage therapy for drug resistant diseases of public health is a national initiative (2023-2024) funded by NIC, with Prof. Dr. Imran Arshad as Principal Investigator.
7. Genomic epidemiology of environmental niches in persistence of Salmonella typhi and mapping community immune patterns of typhoid vaccination is a national project (2023-2024) funded by NIH with 3 million PKR, led by Prof. Dr. Imran Arshad as PI.
8. Genetic and soluble biomarkers of hepatocellular carcinoma and fatty liver disease in human exposed to environmental co-factors is a national research (2023-2025) funded by HEC with 1.812 million PKR, under Prof. Dr. Imran Arshad's leadership.
9. Integrated Research Training on Vector Borne Diseases in Pakistan: Virology, Vector Biology, and Epidemiology is a national project (2024-2028) funded by NIH, with Prof. Dr. Imran Arshad as Co-Principal Investigator.
10. Molecular epidemiology, genotyping and pathology of public health concern Chlamydia psittaci in birds is a national study (2022-2025) funded by HEC with 3.96 million PKR, co-led by Prof. Dr. Imran Arshad.
11. Development of soybean in Pakistan to reduce the import bills is a national agricultural project (2021-2026) funded by PARB, managed by Prof. Dr. Zaheer Ahmad.
12. Import substitution and export enhancement through promotion of sesame, soybean and canola is a national initiative (2024-2027) funded by ADP with 857.386 million PKR, led by Prof. Dr. Zaheer Ahmad as PI.
13. Development of High-Yielding, Heat-Resistant, Photoperiod-Insensitive, Widely Adapted, Multipurpose Soybean Germplasm for Cultivation in Pakistan is a national agricultural research (2022-2025) funded by HEC, under Prof. Dr. Zaheer Ahmad's leadership.
14. Demonstration of Heat-Resistant Soybean Elite Lines and Industry Linkages is a national project (2023-2027) jointly funded by EFS UAF and HEC with 100 million PKR, led by Prof. Dr. Zaheer Ahmad.
15. Enhancing Zinc and Iron Bioavailability in Wheat for Improved Public Health and Nutritional Security in Pakistan is an international collaboration (2024-2026) funded by PKNC with 5.996 million, led by Dr. Raheela Rehman as PI with farmer partners.

16. Development of Intelligent Drone Sprayer Formulation Mobile APP is a national technological project (2024-2026) funded by Endowment Fund, UAF, led by Prof. Dr. Saqib Ali.
17. AgroChain - A Wheat and Sugar Traceability Solution using IoT and Blockchain is a national digital agriculture project (2023-2026) funded by NRPU, HEC, under Prof. Dr. Saqib Ali's leadership.
18. Building the Foundations for a National Plant Diagnostic Network (NPDN) in Pakistan is an international collaboration (2023-2025) funded by USDA, with Dr. Zunaira as Co-PI.
19. Biotechnology and Data Science for Crop Health; a step forward for National Plant Diagnostic and Disease Surveillance Network is an international project (2023-2025) funded by AWB, with an unnamed Co-Principal Investigator.
20. Development of Cost-Effective System for Early Detection of Wheat Rust is a national agricultural technology project (2024-2026) funded by EFS, with an unnamed Co-Principal Investigator.

ESTABLISHMENT OF PUNJAB BIOENERGY INSTITUTE (PBI)

To meet the market demand for trained human resources, a two-year associate degree program in Renewable Energy Technologies (RET) for the academic year 2025-26 has been initiated under the guidelines of the Higher Education Commission (HEC).

A Memorandum of Understanding (MOU) between China and Pakistan through the University of Agriculture Faisalabad (UAF) for establishing the Punjab Bio-energy Institute (PBI) at UAF for strengthening energy R&D in Punjab has been signed.

A project worth 272.425 million has been awarded by Pak Suzuki Motor Company (PSMC) for the production of gaseous transport fuel from waste. The consultancy services are being provided by the University of Agriculture (PBI), Experts on Fuel and Fertilizer production.

Information dissemination and creating linkages with sister institutions abroad, Interaction for Research collaborations for knowledge sharing and information dissemination have been established with the following institutions in Pakistan and abroad.

National Linkages:

- Ministry of Climate Change
- United Nations Development Program
- Punjab Government, Agriculture, Energy and Environment Wing.
- PARC NARC Islamabad
- UP-CASE, NUST University.
- Farmers associations.
- Faisalabad Waste Management Company, Faisalabad
- Government College University, Lahore
- University of Haripur, KPK
- University of Engineering and Technology (UET), Lahore
- PCSIR, Lahore

International Linkages:

- Guangzhou Institute of Energy Conversion, Chinese Academy of Sciences. China
- EGE University, Izmir, Turkey
- Pak Suzuki Motor Company (PSMC)

This year, flare tests on Biogas production have been conducted successfully, followed by a formal request being made to NEPRA for the approval of the Tariff on the Biogas Power project.

Research proposal has been submitted to various funding agencies to establish research and development activities at PBI worth 45.000 million. Postgraduate research on energy and water conservation, enhanced biomass production, application of green fertilizers, and yield enhancement (such as Wheat, rice, and maize) has been conducted.

WATER MANAGEMENT RESEARCH CENTRE (WMRC)

1. Summary

The Water Management Research Centre (WMRC), University of Agriculture Faisalabad, continued its dynamic efforts to advance agricultural water management and sustainable crop production. Key developments over the past year included multiple collaborative research experiments, advanced monitoring infrastructure and stakeholder engagement. This report summarizes the center's major activities, accomplishments and future plans.

2. Organized Events

- **Field Demonstration:**
 - A visit by Agriculture Department (Extension Wing) officials and progressive farmers showcased the benefits of Direct Seeded Rice (DSR) on raised beds.
 - A delegation from Sri Lanka visited WMRC farm to see the on-going research activities.
- **World Water Day 2025 Walk:** The WMRC, in collaboration with the Department of Agronomy and the Irrigation & Drainage, actively participated in organizing an awareness walk aimed at highlighting the importance of water for Pakistan's agriculture and economy.
- **Research Collaboration Launch:** Partnership with Syngenta Pakistan Ltd. to address pesticide residue management on rice to ensure export-compliant produce.
- **Weather Station Installation:** A weather monitoring station was installed in collaboration with the Department of Irrigation and Drainage for high-frequency climate data.
- **Undergraduate Classes:** Undergraduate students from various departments visited the WMRC for field exposure and hands-on learning.

3. Achievements

3.1 Research Execution

- **Experiments Conducted:**
 - Completed: 4 (wheat and maize-focused)
 - Ongoing: 5 (fine rice and mercury dynamics in rice, AWD limit, plant geometry and NPK interaction on rice)
- **Key Focus Areas:** Tillage systems, irrigation regimes, sowing methods and micronutrient applications.

3.2 Research Publications

- **Total Papers Published:** 15 peer-reviewed articles in 2024–2025 in national and international journals such as *Agronomy*, *Irrigation and Drainage*, *Pak. J. Agri. Sci.*, and *Biomass Conversion and Biorefinery*.
- **Highlighted Topics:**
 - Water and nutrient stress management
 - Crop modeling under climate change scenarios
 - Sustainable rice–wheat systems
 - Nanotechnology and environmental remediation in agriculture

3.3 Publication of Brochures and Flyers on World Water Day 2025

WMRC published a series of brochures covering critical topics such as Pakistan's agriculture and drought, advanced water-saving techniques, the impact of water shortages on

Punjab's food security, violations of the Indus Water Treaty by India, water losses during conveyance, and the severe effects of water scarcity in Punjab.

3.3 Academic Integration

- Student Engagement: Graduate and postgraduate students actively conducted field experiments under faculty guidance.
- Interdisciplinary Supervision: Diverse supervision across agronomy, irrigation, plant nutrition and climate studies enhanced scientific rigor.

4. Contributions

- Industrial Collaboration: Syngenta Pakistan Ltd. actively partnered with WMRC for rice residue trials. The demonstration plot at Plot 17/12 is facilitating year-over-year studies.
- Departmental Partnerships:
 - With Department of Irrigation & Drainage (climate monitoring)
 - With Department of Agronomy (DSR demonstration trials)
- Capacity Building: Enhanced student learning through practical exposure and research publications.

5. Plans and Objectives

- Short-Term Plans:
 - Initiate planned experiments on AWD tube optimization and rice productivity under varying planting geometries and nutrient doses.
 - Expand stakeholder field engagement for knowledge dissemination.
- Long-Term Objectives:
 - Enhance collaborative research with private sector and international partners.
 - Strengthen climate-smart agriculture through sensor-based monitoring and modeling tools.
 - Develop technologies to support national food security goals through water-efficient cropping systems.

CHINESE CONFUCIUS INSTITUTE (CI-UAF)

Between July 2024 and June 2025, CI-UAF successfully conducted multiple basic and intermediate Chinese language courses, benefiting over 670 students, and hosted 11 HSK and YCT proficiency tests with more than 14,60 participants. The institute marked its 10th anniversary by inaugurating a new Model Confucius Institute building and expanding its presence with three new sub-campuses in Punjab. CI-UAF organized various cultural events, competitions, and training programs, including a fully funded summer camp in China and scholarship awareness seminars, fostering deep cultural and academic exchanges.

Recognized as a top Model Confucius Institute and HSK Testing Center, CI-UAF has trained over 23,000 students, facilitated more than 600 scholarships, and strengthened Pakistan-China collaboration through research and innovation initiatives.

OBJECTIVE:

To promote Chinese language, culture, and academic as well as research collaboration between Pakistan & China.

The summarized details of CI-UAF activities from July 2024- June 2025 are as under:

Basic Level Language Classes (HSK-1+2)

Ten (10) classes of basic Level Language course (HSK-1+2) were completed including physical as well as online class benefiting more than 550 students.

Intermediate Level Language Classes (HSK-3)

More than 120 students benefitted from the three (3) classes of the Intermediate Level Course (HSK-3).

Elective Classes in UAF (CHIN-405)

Chinese language course CHIN-405 was offered as an elective course for the Faculty of Agriculture, Faculty of Agriculture Engineering and Technology, Faculty of Veterinary Sciences, Faculty of Animal Husbandry, Faculty of Food, Nutrition & Home Sciences, and in the Institute of Business and Management Sciences in 30 sections, each of about 50 students.

Hanyu Shuiping Kaoshi (HSK) & Young Chinese Test (Chinese Proficiency Test)

- Eleven (11) HSK tests were conducted from July 2024 to June 2025 at the CI-UAF test center.

Board of Director's meeting

The 11th BOD meeting of CI-UAF was held on 24th March, 2025, that was in the meeting room of the Vice Chancellor's office at UAF whereas Chinese Dean and Board members from Xinjiang Agricultural University joined virtually.

Events/Competitions:

- A high-level Pakistani academic delegation led by Dr. Saddam Hussain visited China to strengthen collaboration in science, agriculture, and innovation, resulting in

agreements on establishing an Agri-Tech Center, joint research, technology transfer, and capacity-building initiatives. These efforts aim to enhance food security, climate resilience, and deepen Sino-Pak friendship through shared agricultural and technological advancements.

- The Confucius Institute at the University of Agriculture Faisalabad (CI-UAF) has significantly expanded its presence in Punjab with the establishment of three new sub-campuses. Formal agreements were signed with the University of Faisalabad (TUF), Cholistan University of Veterinary and Animal Sciences (CUVAS, Bahawalpur), and Ghazi University (GU, Dera Ghazi Khan).
- On September 26th, UAF celebrated the 10th anniversary of the Confucius Institute and inaugurated its new Model Confucius Institute building, highlighting its role in promoting Chinese language and cultural exchange. The event featured cultural performances, scholarship distributions, and virtual participation from Chinese university leaders, marking a decade of strengthened Pakistan-China academic collaboration.
- A two-week fully funded summer camp tour to China was arranged by road, exploring Pakistan's northern areas and vibrant Chinese cities like Tashkurgan, Kashgar, and Urumqi. The trip included language and cultural classes, ending with certificate awards and unforgettable memories.
- In August 2024 an online teacher training program was conducted for Chinese language instructors across Pakistan. Participants learned innovative teaching methods and cultural insights to enhance their expertise. Outstanding performers received the awards and prizes.
- On December 27th, CI-UAF hosted an awareness seminar on Chinese scholarships alongside a Chinese Singing Competition, attracting active participation from students across universities. The event was honored by the Vice Chairman/Local Dean in person and the Chinese Dean virtually.
- A heartfelt farewell honored the former Local Dean of CI-UAF, whose visionary leadership since 2019 led to the establishment of a Model Confucius Institute building and significant academic growth, elevating CI-UAF to global recognition. His transformative contributions have left a legacy, earning deep gratitude and best wishes for his future endeavors.
- CI-UAF showcased a vibrant stall at the Kissan Mela, attracting many students eager to learn the Chinese language and explore its rich cultural heritage.
- The Confucius Institute at UAF commemorated the 75th anniversary of the People's Republic of China, emphasizing strong cultural and educational ties between China and Pakistan. The celebration fostered mutual understanding and promoted cooperation in education, trade, and cultural exchange.
- CI-UAF welcomed a delegation from Alliance Française Lahore, led by Director Mr. Fabrice Disdier and Deputy Director Mr. Imran Arif, with Pakistani Dean Dr. Saddam Hussain hosting and guiding them through the institute's facilities. The visitors praised CI-UAF's progress and cross-cultural initiatives, concluding the visit with an exchange of souvenirs.
- In 2025, three outstanding students from CI-UAF participated in the 24th Chinese Bridge competition, earning Excellence Performance Awards for their singing, dubbing, and calligraphy entries. The event provided a valuable platform to showcase their Chinese language skills and promote cultural exchange internationally.
- The Chinese New Year (Snake Year) celebration at CI-UAF was a grand event attended by the UAF Vice Chancellor, university officials, foreign delegates, and students, featuring cultural performances, cuisines, and traditional fireworks. Media coverage highlighted its role in promoting cultural exchange and strengthening Sino-Pak ties.

- CI-UAF celebrated the Chinese Dragon Boat Festival on June 2, 2025, featuring cultural performances, a dramatic skit, and interactive activities that promoted cross-cultural understanding. The event concluded with souvenir distribution and a festive lunch, strengthening bonds between Chinese and Pakistani communities
- CI-UAF celebrated International Chinese Language Day with a poster competition themed "Chinese Language: A Gift Across Time and Space," attracting over 200 enthusiastic students. The event highlighted the artistic talent and cultural appreciation of participants, with awards and certificates distributed to recognize their contributions to linguistic diversity and intercultural understanding.

Signing of formal agreement for CI-UAF subset in Ghazi University

DIRECTORATE OF PRESS & PUBLICATIONS

Directorate of Press & Publications, University of Agriculture Faisalabad is an index of the University and responsible for overseeing the planning, production, and dissemination of university publications that promote academic, research, and outreach activities. The Directorate consists of two components:

- (i) **Office of University Books & Magazines (OUBM)**
- (ii) **University Press**

OFFICE OF UNIVERSITY BOOKS & MAGAZINES (OUBM)

DIRECTORATE OF PUBLIC RELATIONS, MEDIA & COMMUNICATION

The department consists two components: (i) Information and Pictorial Publicity Section (IPPS), and (ii) University Press.

The University maintains well organized Public Relations and Publication Services for projection of the institution and highlighting the achievements of its scientists, scholars and students in print and electronic media. The Campus News usually appears once a week to keep the staff and students updated about the University activities and other information like career opportunities, quotations, PhD theses/synopsis defence, scholarships, tender and auction notices etc. On some special occasions, a Newsletter also comes out to highlight the pleasant vistas of the varsity and to showcase its success stories for the information of the general public and other stake holders.

The PRP department is responsible for issuing handouts, pictorial publicity regarding functions and ceremonies arranged by the various departments of the University. The department is providing information about the infrastructure of University disciplines, which are being taught in the University, schedule of admissions in various degree programs and other information when it is demanded. This office is also dealing with the complaints launched through PM Portal and also respond to the applications received under Punjab Transparency and Right to Information Act 2013.

A number of scientific journals, books, calendars, prospectuses, leaflets, contingent bills, and bulletins including University Annual Report are regularly published by the University Press. Many of these publications are in great demand among the general public and enlightened agriculturists.

MEDIA COVERAGE

The Information and Pictorial Publicity Session arranges media coverage of all the special events held at the University and subsequently other events as well. All the electronic media channels and international and national press were facilitated about such events in a way of providing them excellent residential facilities and other relevant support. Information and Pictorial Publicity Section of the PRP Department also issues handouts to both electronic and print media and attains excellent coverage.

Moreover, the IPPS invites different TV channels to make documentaries and conduct talk shows, quiz competitions and interviews of students, researchers and renowned scientists of the country.

PM CITIZEN PORTAL

This very office is also dealing the affairs of Prime Minister Citizen Portal as focal person/dashboard handler on behalf of the vice chancellor. A citizen, who is facing some problems/issues regarding the university, launches his complaints through PM Portal and the focal person/dashboard handlers, after getting response from the concerned office, used to resolve the complaint(s) in accordance with the relevant rules, regulations and provisions of statutory bodies within the stipulated timeframe. This new system helps the citizens to get his/her issue resolved at earliest and on the hand, the varsity management formulates necessary rules and regulations to resolve the issues by easing out the bottlenecks and procedural hurdles.

PUNJAB TRANSPARENCY AND RIGHT TO INFORMATION ACT, 2013

This office is also responsible to respond the citizen who intends to seek information of the university through Punjab Transparency and Right to Information Act, 2013. A person submits or dispatches his application with detail of the requisite information and this office after obtaining the requisite information from the concerned office forward the same to the citizen within stipulated timeframe of the receipt of application in the office.

AUDIO-VISUAL LAB

To meet the emerging challenges of ever-new technology and make an effective use of the media in bringing forward a pleasant and soft image of the University, an audio visual lab has been established at the PRP department for preparing video documentaries regarding various activities taking place at the Campus in the field of research, academic, curricular, co-curricular activities and other ongoing research projects funded by the Higher Education Commission and other government and non-government funding agencies.

EVENT MANAGEMENT

The Department used to organize different events of national interests. The events meant to create the awareness and address the different challenges confronting the agricultural, economic social sectors. The Department looks after all activities of the seminar, conferences and special lectures etc.

PROTOCOL DUTIES

The Department performs the protocol duties of high-level delegations who visit the varsity. The department staff remains busy in providing the services ranging from the receiving at varsity to the visit of different departments.

DOCUMENTARIES

The Department develops the documentaries on the different issues and the role of the university aimed at creating to raise awareness among the masses. The documentaries highlight the various aspects of the technologies developed by the UAF scientists along with operational techniques for the benefit of the farming community.

DIRECTORATE OF FINANCIAL ASSISTANCE AND UNIVERSITY ADVANCEMENT

1) OFFICE OF THE FINANCIAL ASSISTANCE

Professional and higher studies in Pakistan during the recent years have become very expensive. In view of the increasing expenses day by day, it is becoming very difficult for the poor section of society to educate their children. Under such critical circumstances, financial sponsorship of deserving and meritorious students may help to create a soothing impact on the community, particularly the rural masses, and bring a positive and healthy social change in the long run. True to its motto "Education with public spirit and market dynamism," the University has instituted a comprehensive and well-developed scholarship scheme/ Career Services/ University Advancement to extend financial support to the talented but deserving students. We continue to increase its extent and amount in order to meet our obligations. An amount of Rs. 416/- million was distributed among 5460 Students during 2024-25.

VISION

To provide higher education to the talented, deserving, and marginalized segments of society.

MISSION

To assist students & their families in meeting financial needs for higher education

STUDENT FINANCIAL ASSISTANCE MECHANISM AT UAF

Financial Assistance to meritorious and deserving students is extended in the following: -
Scholarship Program: Scholarships are awarded to deserving and meritorious students. The award is based on merit, financial need, or a combination of both merit and need. Scholarships can come from different sources, and the awarding criteria may vary. The university is awarding 5% merit scholarships to graduate and undergraduate students on a CGPA basis.

FEE CONCESSION:

1. Tuition fee concession (50%) to 10% students of the class by the academic heads of different faculties and institutes
2. Brother/sister tuition fee concession up to 50% on application through the academic heads
3. Fee exemption to disabled persons admitted on the disabled quota on application through the academic heads.

INTERNSHIP PROGRAM

An internship is a work-related learning experience for students who wish to develop hands-on work experience in a certain occupational field. Most internships are temporary assignments and can be shorter or longer depending on the program requirements. These may be paid, unpaid, or partially paid in the form of a stipend.

Work-Study Program

A form of financial assistance in which students perform work in exchange for money for their education. A number of students are working on various research projects sponsored by HEC/ Government Departments/ organizations. The students are also being hired on an hourly basis in different departments of the university. A ratio of 50% of the total budget (DPL) was allocated to hire students for different services in the respective departments.

Student Loan Scheme

Students of this University can also apply to the National Bank of Pakistan to get interest interest-free loan in order to support their education. Students are facilitated in processing their applications to the NBP, University Branch. Some organizations are also extending loan facilities to students of UAF. This Directorate is also offering UAF loans to University students.

Test for Foreign Scholarships

This office has organized GRE mock activities for the preparation of the international GRE for Fulbright Scholarship and many more. More than 1000 students benefited from these activities.

Miscellaneous Facilities

A Facility to deposit dues in installments for financially constrained students and those affected by natural calamities.

ENDOWMENT FUND SECRETARIAT

Executive Summary

The Government of Pakistan and United States of America recalling the close ties in scientific and technological cooperation signed a US\$ 12.4 million Food for Progress, Agreement on September 15, 2003. Under this Agreement, University of Agriculture, Faisalabad (UAF) has established FDTTPC Endowment Fund. The Ministry of Finance transferred Rs. 650.00 million to UAF in 2006. The income generated through investment of the principal amount in Government approved banks/institutions is used for fund's activities in line with the Pakistan's long term research and development goals for the agriculture sector. The goals focus on food security, poverty alleviation and promoting broad based equitable and sustainable agriculture.

Vision and Mission Statements

Vision

To innovate the agriculture in becoming competitive and profitable for sustainable growth and commercialization

Mission

1. To support UAF faculty, the national scientific community, and agricultural industry working for the cause of agricultural and rural development.
2. To promote competitiveness in agriculture through adaptive Research & Development initiatives.
3. To explore ways and means for strengthening of Endowment Fund for Research & Product Development.

Objectives

Endowment Fund was established with the assistance of USDA as given the Executive Summary. The Syndicate under Section 25(2)(i) of the University of Agriculture Faisalabad Act, 1973 approved the MOU to establish Endowment Fund at UAF. The major objectives of funds are:

Scholar Block for working women's (completed & handed over).	11.107
Farm Display & Lodging Facility for UAF staff (Ongoing)	334.144

The Endowment Fund Secretariat, UAF has successfully completed the new Scholar Block, specifically designed to offer essential lodging facilities for working women. This initiative aims to alleviate housing challenges, offering a safe, supportive, and conducive environment that enables women to pursue their professional endeavors without the added burden of finding suitable accommodation. By investing in this state of the art infrastructure, the EFS has directly contributed to increase female labor force participation and promoting greater gender equality within the workforce.

The Endowment Fund Secretariat, UAF has introduced dedicated lodging facility for UAF staff members holding positions at BPS-17 and above. This development aims to provide comfortable and convenient accommodation for senior university personnel, directly contributing to their well-being and enhancing their overall productivity. By addressing a crucial aspect of staff welfare, this facility underscores the EFS's commitment to creating a supportive environment that attracts and retains high-caliber talent within the UAF community, thereby strengthening the institution's human capital.

DIRECTORATE OF FARMS

The Directorate of Farms consists of following research/demonstration farms located at Campus (212/RB), PARS (221/RB), Ochkera (217/RB), Proka 1 (218/RB), Proka II (218/RB), Rajawala (123/JB), Hafizabad Seed Farm, Toba Tek Singh Farm, Narowal Seed Farm, Toba Tek Singh Campus Farm(UAF Constituent College T.T. Singh), Haveli Lakha Farm(UAF Constituent College Okara) and Burewala Farm(UAF Constituent College Burewala. The Cultivated area of all these farms is 1805 Acres. By pooling farm resources, it became possible to bring this area under cultivation. These farms provide excellent opportunities for students and faculty to conduct research, education, and training. The outreach activities involving field trials, field demonstrations, student field trips, outdoor laboratories, and classrooms prepare students to become future natural resource managers.

Salient Achievements of the Directorate of Farms

The staff of the Directorate is working around the clock. The layout of farms, especially at the main Campus, Ochkera, and Proka, is being developed. Moreover, agriculture is at a great pace, and the results are appearing with time. The following are some significant achievements of the Directorate of Farms:

- Provided facilities to the faculty and students to undertake research in a befitting manner.
- Served as outdoor laboratories, classrooms and educational centers for the students studying in various agricultural disciplines.
- Mechanical cutting of fodder for Livestock to enhance labour efficiency.
- Established date palm plantation and fruit nursery at PARS.
- Participatory Community Service Centre, in consultation with City District Government at Ghulam Muhammad Abad Farm.
- At Campus, Ochkera and Proka farms developed a separate research area.
- Installed two Turbines at PARS farm which will help in meeting water requirements of crops.
- Bed Planting of different crops for water saving, e.g: Rice(DSR), Sorghum etc.
- Cropping schemes at the University farms are being changed. To facilitate transportation of farm produce, new farm roads are being constructed.
- Despite severe shortage of water coupled with unusual seasonal changes/stresses, the situation was taken care of without substantial losses.
- Guided to a large number of visiting farmers for practical solutions of their agriculture related problems.
- Revival of integrated approach of fisheries, poultry, livestock, crops, vegetables at Proka-II Farm.
- Arrange Tent pegging, Cattle/ Camel Shows, Grey Hound Race, Gur Mela and Kabaddi for Farmer Community.

LIVESTOCK FARM MANAGEMENT

When animal scientists want to conduct research on new ideas in outdoor laboratories, their first choice is often Campus Livestock and Poultry Farms (LPF), UAF. These farms include field laboratories and housing for many types of livestock. In addition, the farms have a central feed mill to provide special feed ration for the research animals kept on the farm. The LPF is used by almost all disciplines in the faculty of Animal Husbandry, UAF. The livestock and poultry strength of LM Farm is given below:

Laboratory Schools & College System

The Laboratory Schools & College System, an integral unit of the University of Agriculture Faisalabad, continued its mission of providing quality education and character-building opportunities during the year 2025. The Honourable Vice Chancellor, Prof. Dr. Zulfqar Ali, under his dynamic leadership, provided a new direction and vision to the institution. In line with this vision, the Principal, Muhammad Jamil, made untiring efforts to achieve the set goals with dedication and commitment.

The Senior Headmaster of the Laboratory Higher Secondary School, PARS Campus, also played a significant role in the upgradation and development of his branch. Moreover, under the Laboratory Schools and College System, a chain of schools is functioning successfully, where the Principal Officer Schools, Prof. Dr. Abdul Ghaffar, has instilled a new spirit, strengthening the overall academic and administrative framework.

Academic performance remained exemplary, with students securing excellent results in the Secondary School Certificate (SSC) examinations. Teachers employed modern teaching techniques, supplemented by remedial classes for academically weak students, ensuring effective learning outcomes.

The school also excelled in co-curricular activities. Students participated in debates, quizzes, science exhibitions, sports competitions, and inter-school events, enhancing their skills and self-confidence. Special programmes were organized to commemorate national days and to instill patriotism, including events demonstrating solidarity with the brave armed forces of the country.

Religious, moral, and civic education was given equal importance. Daily assemblies included Qur'anic recitation, Naat, and moral lessons, while awareness sessions on health, hygiene, and environmental protection reinforced the importance of discipline, cleanliness, and mutual respect.

Through the sustained support of the University of Agriculture Faisalabad and the visionary guidance of the Honourable Vice Chancellor, the Laboratory Higher Secondary School is steadily progressing towards its mission of producing academically sound, morally upright, and socially responsible citizens ready to contribute to the nation's development.
