### Profile

Dr Muhammad Rafay Muzamil completed his MSc (Hons.) Agricultural Extension at the Institute of Agricultural Extension and Rural Development and joined the University of Agriculture Faisalabad (UAF) as a lecturer in 2016. He secured an overseas scholarship under the agricultural development program from the Govt of Punjab and completed PhD from the University of Western Australia. He rejoined the University as Assistant Professor in 2021. Overall, he is trained as an extension educationist and human and environmental geographer. He is a passionate educator with a strong devotion to overcoming structural inequities through solution-focused research and practice to address pressing challenges of our time – climate/environmental change and inequalities. His research interests mainly focus on climate change adaptation, future science, natural resource management, livelihood security, transformative education, participatory methods, qualitative analysis, community/rural development, and conflict studies.
