A dedicated university lecturer with extensive experience in teaching Big Data Analytics, Software Project Management, and Programming Languages to undergraduate and graduate students. Committed to fostering academic excellence, I actively supervise postgraduate research and prepare students for national and international coding competitions. Seeking to leverage my expertise and passion for education to contribute to the academic and professional growth of students.

EXPERIENCE

OCTOBER 2014 – PRESENT

LECTURER, UNIVERSITY OF AGRICULTURE FAISALABAD

Teaching and research work with post graduate students.

EDUCATION

2012

MS(COMPUTER SCIENCE), UNIVERSITY OF AGRICULTURE FAISALABAD

3.84/ 4 CGPA

2009

BS(SOFTWARE ENGINEERING), GC UNIVERSITY FAISALABAD

3.68/4 CGPA, gold medalist

SKILLS

- In-depth knowledge and understanding of Big Data Analytics, Software Project Management, and Programming Languages like C++ and Python
- Ability to guide and mentor postgraduate students in their research work
- Utilizes creative and effective teaching strategies to enhance student engagement and learning outcomes
- Dedicated to mentoring students and providing career guidance, particularly in preparing for national and international coding competitions

ACTIVITIES

Committed to fostering holistic development in graduate students by tutoring them in ethical and personality development, ensuring they are well-rounded individuals ready for professional challenges. Continuously seeks opportunities for personal and professional growth through attending conferences, workshops, and staying current with advancements in the field. Actively participated as a judge in an online hackathon, evaluating innovative solutions and providing constructive feedback to participants.
