RESEARCH WORK

Ph.D. research topic

An optimized predictive modeling for chronic diseases and survivors by using Bayesian and classical approach

During the session of Master of Philosophy
University of Agriculture Faisalabad

M.Phil. research work

A comparative study of detecting outliers in the designs of experiments

During the session of Master of Philosophy
University of Agriculture Faisalabad

M.Sc. research work

SURVIVAL ANALYSIS: A study on the patient of CANCER Allied Hospital Faisalabad

During the session of Master of Science
University of Agriculture Faisalabad
